The Chippewa Flowage is located in central Sawyer County in northwestern Wisconsin. Access from the south is via either State 27 or County 6 Road. Access from the north is via County 6 Road. Access points are located off County Highway C and the central portion of the property. County Highway C is the closest and a through route for those traveling from Rice Lake to St. Croix on the southeast. The property office is located on Highway 27 at the DNR Service Center in Hayward.

Wisconsin’s Department of Natural Resources’ Violation Hotline program provides Wisconsin residents with an opportunity to confidentially report violations of wildlife, vegetation, and environmental laws using a toll-free hotline. More specifically, this program is available at (715) 634-7433 weekdays from 8:00 a.m. until 5:00 p.m. If you wish to write to the Equal Opportunity Office, Department of Interior, Washington, D.C. 20240, you may write to Equal Opportunity Office, Department of Interior, Washington, D.C. 20240.

The local topography is a mosaic of rolling hills, valleys, streams and bogs that reflect the glacial landscape. The Flowage’s shorelands are generally forested with a mixture of aspen, birch, pine, northern hardwoods and oak. Mature aspen forests predominate but in many places, birch and ironwood are the dominant species. Almost all of the lakes and rivers that are indigenous to northern Wisconsin are found within the area and include lake trout, coping and fines. Wildlife viewing opportunities enhance the attractiveness of the Flowage to visitors.

The Wisconsin Department of Natural Resources provides equal opportunity in its employment, training, and access to facilities or programs. Visit dnr.wi.gov for more information.

Introduction
The Flowage is a natural resource in Sawyer County, Wisconsin. It supports a diverse ecosystem that provides habitat for a wide variety of plant and animal species. The Chippewa Flowage is one of the last remaining natural environments in the Midwest, and it is an example of what can be achieved through the cooperation of government agencies and communities.
