

Final Report of grant # AEPP-075-07

See adopt a shoreline reports as filled out and gathered by Ted Griggs for 2007 and 2008.

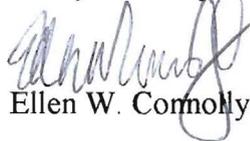

As an addendum, I would add that the shore beaches are much cleaner of litter the last few years. There is, of course, missing toys etc that go astray or get blown away but the wrappers and cigarette butts are quite a bit less. I know some of us have been using a guide to aquatic plants which we heard about from Sue Bormann and that has been helpful in identifying some of the species which were new or not seen before.

There were no meetings attended to of the Wascott Board for these times. And no ordinances changed or worked on.

One of the interesting effects is how the teen workers have become so involved and enjoying their job. They really feel like they are making a difference. It is fun to watch them mature and grow during the summer taking on the responsibilities.

They were much more apt to error on the side of over diligence rather than not enough.

Respectfully submitted,

Ellen W. Connolly

AIS SHORELINE MONITOR REPORTS.txt

AIS GRANT SHORLINE INSPECTORS REPORT. WHITEFISH LAKE. SEPTEMBER 2, 2007

SECTION OF LAKE	INSPECTOR	REPORT	DATE REPORTED
LANDING TO FREITAG	FREITAG	PENDING	Sept 5
FREITAG TO TUONIMEN	PRASEK	OK - PENDING	August
TUONIMEN TO HEATHCOTE	BERGE	OK - ALL CLEAR	AUGUST
HEATHCOTE TO JARVIS	SENINGEN	OK - PENDING	SEPT.
JARVIS TO DEMING	BANKS/DEMING	OK - PENDING	SEPT 16
DEMING TO SUTTON	HANFT	PENDING	Sept 1st
SUTTON TO PADDOCK	GRIGGS	ALL CLEAR	AUGUST
PADDOCK TO SMITH	PADDOCK	OK - PENDING	August - 21
SMITH TO FORBES	PADDOCK	OK - PENDING	August - 22
FORBES TO CONNOLLY	CONNOLLY	PENDING	August
CONNOLLY TO TAYLOR	CONNOLLY	PENDING	August
TAYLOR TO HENNESY	BODEEN	ALL CLEAR	August JULY
HENNESY TO LANDING	F/S ANDERSON	ALL CLEAR	AUGUST

STATUS:

13 INSPECTORS REPORTED
~~9 INSPECTORS PENDING~~

NOTES:

BODEENS FOUND A CRAYFISH. WAS NOT A RUSTY CRAYFISH.
BODEENS FOUND SUSPICIOUS PLANT & LOOKED IT UP. WAS NOT E.W.M.
BERGES FOUND SMALL SNAILS. WAS NOT ZEBRA MUSSELS,

↓
↑
WERE [way to big]

People generally report they enjoyed doing this. (Noticed plants, rocks, mussels etc they hadn't seen previously.)
So this is a good educational opportunity as well as ANTI-AIS.

DNR TO ANDERSON	ANDERSON	OK	SEPT. SEPT. 13
SEPT. ANDERSON TO LANDING	BERGE/GRIGGS	OK	SEPT. 12
TUONIMEN TO Heathcote	Howards	OK	AUG 28

Inspections were done throughout the summer between June 1 and Oct 1, 2008

Inspectors walked and waded their assigned sections. In addition, on Lake Cleanup Day (July 5), the shoreline was inspected for AIS while trash was collected by volunteers. Scuba divers also inspected the area near the boat landing and at Forbes' Cove.

Several suspicious plants were turned in. The specimens were Northern Water Milfoil and Claspingleaf Pondweed. As in 2007, snails and a few crayfish were brought in. None were AIS.

The scuba divers found no AIS but quite a lot of cans, bottles, fishing lures and other junk at the two sites they checked. They went to a depth of approximately 30 feet.

In 2009 all shoreline inspectors will have a copy of the Aquatic Plants of

08 shore inspect nos.

Whitefish Lake book

that John Haack produced. This will help people become familiar with more of the native plants.

200 BOOKS
ordered, so there
will be available
for every cabin
plus many extras.
