Source: U.S.G.S. 7.5-minute topographic quadrangles - Moen Lake (1982) and Rhinelander (1982), Oneida County. Classification derived from LANDSAT Thematic Mapper (TM) satellite imagery from 1991, 1992, and 1993. The classification has been "smoothed" to a 1-acre minimum mapping unit (4 contiguous pixels) from the original 30-meter pixel size. Wetlands smaller than 1 acre and open water pixels were not smoothed. Classification was done at the Wisconsin DNR, GEO Services Section.
