

AUGUST 31, 2011 AND SEPTEMBER 8, 2011

LAKE STATES CABLE LOGGING DEMONSTRATION

APPROXIMATELY 3 MILES WEST OF MIDDLE INLET, WI

Two day-long demonstrations of the Teleforest, Inc. "Telecarrier" Cable Yarding System will be held three miles west of Middle Inlet on County Road 'X' in Marinette County on Ed Pomeroy's property.

Unlike other cable systems, the Teleforest, Inc. "Telecarrier System" does not use a fixed anchor during operations. "Using excavators reduces travel time, which also reduces the manpower needed and the risk of accidents.

The demonstrations will run from 9:00 A.M. until 3:00 P.M. on August 31 & September 8, 2011.

ATTN GLTPA Logging Congress Attendees— a bus will be leaving from the 2011 GLTPA Logging Congress site at 8:00 AM 9/8/11. Please indicate below if you are interested.

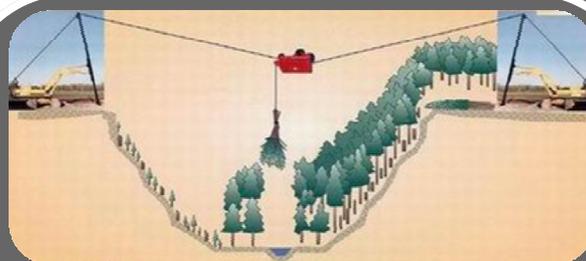

- Space is limited, register early!
- Lunch included in registration.
- Outdoor event - dress accordingly.
- If possible, bring your own hardhat.

office@glacierlandrcd.org or 920.465.3006

Brought to you in part by: USFS Wood Education and Resource Center, River Country RC&D, Glacierland RC&D, and Pomeroy Forest Products.

Registration:
\$15.00/Person

Directions:
From Hwy 141, go west on County Road 'X' - follow event signs

Developed by Teleforest Inc., this cable system consists of a remote controlled/self-propelled trolley traveling on a cable suspended between towers on two excavators with winches used to put the cable in place.

This unique system can be utilized in various landscape scenarios (i.e. steep slopes, ravines, wetlands, islands, etc.) and can be profitable in conditions with lower volumes than required by traditional cable yarding systems. Visit teleforest.com for more information.
