Air pollution construction permit no. 13-SMS-138

Application Review.

DNR has made a preliminary determination that the application meets state and federal air pollution control requirements and that the permit should be approved. You can review the permit application, the DNR's analysis and draft permit prepared by the DNR at the Department of Natural Resources Bureau of Air Management Headquarters, Seventh Floor, 101 South Webster Street, Madison, Wisconsin, 53703, tel. (608) 266-2621; West Central Region Air Program, LaCrosse Area Office, 3550 Mormon Coulee Road, LaCrosse, WI 54601, tel. (608) 785-9975; and at the McIntosh Memorial Library 118 E. This type of proposal normally does not have the potential to cause significant adverse environmental effects and the DNR has not prepared an Environmental Assessment of the proposal. This preliminary determination does not constitute approval from the Air Management Program or any other DNR sections which may also require a review of the project.

The DNR published a public notice on January 16, 2014 at http://dnr.wi.gov/cias/am/amexternal/public_notices.aspx and in the Wisconsin State Journal. A request was received on January 15, 2014 by the DNR to hold a public hearing on the proposed project.
