

**Notice Date:** December 1, 2014

**Subject:** Request for economic impact of proposed changes in Natural Resources Board Order FH-12-14 relating to minor changes to fisheries administrative code.

**Comment Period:** December 1 - 15, 2014

The Department of Natural Resources is conducting an economic impact analysis (EIA) of its rule proposal, FH-12-14. The rule addresses minor changes to administrative code relating to the regulation of fishing. The rule is being pursued to ensure the rule language that governs fishing in inland, outlying, and boundary waters is accurate and properly reflects the desired management of Wisconsin waters.

Notice is hereby given that the Department will accept written comments on the EIA until December 15, 2014. The Department is gathering information to determine if there is an economic effect of the proposed rule on specific businesses, business sectors, public utility ratepayers, local governmental units, and the state economy as a whole. Information and advice is requested from businesses, business associations, local governmental units, and individuals that may be affected economically by the proposed rule.

Would you, your business, your association, or your local unit of government be affected economically if this rule implemented the following:

- Clarification of the boundaries around the Lake Winnebago System in which a spearer can possess an unregistered lake sturgeon
- Changing the Columbia Lake (Columbia County) 18" minimum length limit and 3 daily bag limit on hybrid striped bass to no minimum length, no bag limit
- Returning to the 15-inch minimum length limit and 5 fish daily bag limit for walleye on Silver Lake (Columbia County)
- Reinstating the allowance of night fishing on the Brule River downstream from Hwy 2 for all species during the regular trout open season (first Saturday in May - September 30)
- Amending trout stream names in code to accurately reflect common names and reduce angler confusion of where regulations begin and end for Coon creek (Bohemian Valley Creek) in La Crosse County and Coon creek from CTH P upstream to the confluence with Timber Coulee creek and Timber Coulee creek upstream to Olstad Road in Vernon County
- Extending the boundary of Wisconsin River regulations (year-round open season on bass, pike, walleye) on a 100 foot stretch of the connecting Eau Claire River in Marathon County
- Changing the regulations boundary between the Three Lakes Chain in Oneida County and the Eagle Chain in Vilas County from the county border to the Long Lake (Burnt Rollways) Dam in Oneida County
- Changing all listings of the Neenah-Menasha dam to "dams" in Winnebago County
- Making set pole/bank pole/setline fishing open seasons for catfish and rough fish the same throughout all Lake Winnebago System waters in Winnebago County

If you expect to be affected economically by this rule proposal please provide as much information as possible to the Department regarding:

1. any implementation or compliance costs you would expect to incur,
2. quantifiable benefits of the proposed rule, or
3. how the proposed rule would negatively affect your overall economic competitiveness, productivity, or jobs.

If requested, the Department will coordinate with local governments in the preparation of the EIA.

**Please indicate whether you are responding as a business, small business, business association, local governmental unit, or individual.** A small business is defined as an independently owned and operated business that is not dominant in its field and which employs 25 or fewer full-time employees or which has gross annual sales of less than \$5,000,000.

The proposed rule and initial fiscal estimate may be reviewed at:

<http://dnr.wi.gov/news/input/proposedrules.html> or <http://adminrules.wisconsin.gov>

To request this material in an alternative format, please call Kate Strom Hiorns at (608) 266-0828 with specific information on your request by December 8, 2014.

Comments are due and shall be postmarked no later than December 15, 2014. Please provide your email address or phone number in order for the Department to contact you if additional information is needed. Written comments on economic effects of the proposal may be submitted via U.S. mail or email to:

Kate Strom Hiorns

## ADMINISTRATIVE RULES Fiscal Estimate & Economic Impact Analysis

1. Type of Estimate and Analysis

Original    Updated    Corrected

2. Administrative Rule Chapter, Title and Number

Chapter NR 20, Fishing in Inland Waters and Outlying Waters

3. Subject

Minor changes to fisheries administrative code

4. Fund Sources Affected

GPR    FED    PRO    PRS    SEG    SEG-S

5. Chapter 20, Stats. Appropriations Affected

6. Fiscal Effect of Implementing the Rule

No Fiscal Effect    Increase Existing Revenues    Increase Costs  
 Indeterminate    Decrease Existing Revenues    Could Absorb Within Agency's Budget  
 Decrease Cost

7. The Rule Will Impact the Following (Check All That Apply)

State's Economy    Specific Businesses/Sectors  
 Local Government Units    Public Utility Rate Payers  
 Small Businesses (if checked, complete Attachment A)

8. Would Implementation and Compliance Costs Be Greater Than \$20 million?

Yes    No

9. Policy Problem Addressed by the Rule

The rule is being pursued to ensure the rule language that governs fishing in inland, outlying, and boundary waters is accurate and properly reflects the desired management of Wisconsin waters. The objectives are to:

- remove sections of code that are outdated or have been replaced by other statute or code changes,
- correct errors that occurred during the drafting of rules, and
- add or repeal language to clarify intent of original rules.

10. Summary of the businesses, business sectors, associations representing business, local governmental units, and individuals that may be affected by the proposed rule that were contacted for comments.

The department will be contacting several groups during the open comment period in December 2014, including the Wisconsin Conservation Congress, the Wisconsin Wildlife Federation, the Great Lakes Indian Fish and Wildlife Commission, Wisconsin Association of Lakes, WI Federation of Great Lakes Sport Fishing Clubs and many other similar angling organizations, as well as the League of WI Municipalities, WI Towns Association, and WI Counties Association.

11. Identify the local governmental units that participated in the development of this EIA.

The open comment period will be conducted during December 2014. Any local governments that participate in the development of the EIA after this period will be noted here.

12. Summary of Rule's Economic and Fiscal Impact on Specific Businesses, Business Sectors, Public Utility Rate Payers, Local Governmental Units and the State's Economy as a Whole (Include Implementation and Compliance Costs Expected to be Incurred)

The proposed rule will have minimal impact on sport anglers and is not expected to have an economic impact. As with any change in regulations, there will be a requirement for anglers to learn the new rules. However, a majority of this rule change clarifies code to reflect existing policies for which anglers must already comply. The department works to notify the public of new regulations via press releases, the internet, and fishing regulations pamphlets.

The proposed rule does not impose any compliance or reporting requirements on small businesses nor are any design or operational standards contained in the rule.

## ADMINISTRATIVE RULES Fiscal Estimate & Economic Impact Analysis

---

### 13. Benefits of Implementing the Rule and Alternative(s) to Implementing the Rule

The rule is being pursued to ensure the rule language that governs fishing in inland, outlying, and boundary waters is accurate and properly reflects the desired management of Wisconsin waters. An alternative would be to leave the code as is, which leads to confusion among the public and law enforcement and may also result in inadequate management of fisheries resources.

---

### 14. Long Range Implications of Implementing the Rule

Fishing regulations, such as length and bag limits or season dates, are used as a tool to ensure good fishing exists into the future. The department has used different types of fishing regulations in order to: control angler impacts on fish populations; maintain numbers and sizes of fish in a lake or stream; provide different types of fishing experiences, such as fishing for dinner or for a trophy fish; and make access to fishing as fair as possible.

This rule includes minor changes to administrative code that support existing policies and fisheries management goals.

---

### 15. Compare With Approaches Being Used by Federal Government

Authority to promulgate fishing regulations is granted to states. None of the proposed changes violate or conflict with federal regulations.

---

### 16. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota)

Fisheries management rules are generally similar in the states surrounding Wisconsin. Each bordering state regulates fishing by the use of seasons, bag limits and size limits.

ORDER OF THE STATE OF WISCONSIN NATURAL RESOURCES BOARD  
AMENDING RULES

The statement of scope for this rule, SS094-14, was approved by the Governor on August 27, 2014, published in Register No. 705 on October 1, 2014, and approved by the Natural Resources Board on October 29, 2014. This permanent rule was approved by the Governor on \_\_\_\_.

The Wisconsin Natural Resources Board proposes an order to amend NR 20.10 (8) and (9); 20.20 (11) (c), (11) (k) 1., (16) (a), (16) (g) 1., (32) (f) 1., (37) (a), (37) (c) 1., (37) (e) 2., (37) (i) 1., (44) (g) 1., (63) (c) 2. and 3., (64) (h) 2., (71) (a), (71) (c), (71) (cm), (71) (d), (71) (e), and (71) (g); relating to minor changes to fisheries administrative code.

**FH-12-14**

**Analysis Prepared by the Department of Natural Resources**

**1. Statutes Interpreted:** Sections 29.014(1), 29.041, and 29.053(2), Stats., have been interpreted as giving the department the authority to make changes to Wisconsin fishing rules.

**2. Statutory Authority:** Sections 29.014(1), 29.041, and 29.053(2), Stats.

**3. Explanation of Agency Authority:**

Section 29.014(1), Stats., directs the department to establish and maintain conditions governing the taking of fish that will conserve the fish supply and ensure the citizens of this state continued opportunities for good fishing.

Section 29.041, Stats., provides that the department may regulate fishing on and in all interstate boundary waters and outlying waters.

Section 29.053 (2), Stats., provides that the department may establish conditions governing the taking of fish for the state as a whole, for counties or parts of counties, or for waterbodies or parts of waterbodies.

**4. Related Statutes or Rules:**

If approved by the Natural Resources Board at its December meeting, the department will be concurrently proposing a rule (FH-14-14) that will make changes to fish size limits, bag limits, seasons, and other fishing regulations. The rule is being pursued to help meet management goals and objectives for waters and their fish species, such as providing a trophy walleye fishery or a bass fishery that maximizes predation on smaller fishes. The proposed regulations in FH-14-14 will be available for public review and comments at the Fish and Wildlife Spring Hearings held on the second Monday of April 2015.

**5. Plain Language Analysis:**

The proposed rule addresses minor changes to administrative code relating to the regulation of fishing. The rule is being pursued to ensure the rule language that governs fishing in inland, outlying, and boundary waters is accurate and properly reflects the desired management of Wisconsin waters. The objectives are to:

- remove sections of code that are outdated or have been replaced by other statute or code changes,
- correct errors that occurred during the drafting of rules, and
- add or repeal language to clarify intent of original rules.

SECTION 1 clarifies the boundaries around the Lake Winnebago System in which a spearer can possess an unregistered lake sturgeon. Updates are needed due to roadway construction and naming changes over

time.

SECTION 2 changes the Columbia Lake (Columbia County) 18" minimum length limit and 3 daily bag limit on hybrid striped bass to no minimum length, no bag limit. Hybrid striped bass are considered an invasive species under NR 40, Wis. Adm. Code, and are therefore no longer imported and stocked in any Wisconsin waters. The department would like to continue to allow catch and harvest of any existing striped bass in Columbia Lake under a no minimum length-no bag limit regulation. If striped bass were removed from listing in administrative code, there would be no open season and none could be harvested under NR 20.20 (73)(p), which states all species not listed in NR 20.20 have no open season.

SECTION 2 also removes the current harvest regulations (18-inch minimum length limit and 3 fish daily bag limit) for walleye on Silver Lake (Columbia County). The lake has not been stocked with walleye since 2000 and there is no longer a population of walleye in the lake. Therefore, the special regulation is no longer necessary and can be removed from the lake and from listing in the regulations booklet. The regulation will return to the general statewide walleye regulation of 15-inch minimum length limit and 5 fish daily bag limit.

SECTION 3 reinstates the allowance of night fishing on the Brule River downstream from Hwy 2 for all species during the regular trout open season (first Saturday in May - September 30). It prohibits night fishing during the early trout open season (last Saturday in March to May 4) and extended trout open season (October 1 to November 15). The current regulation is an error in code that occurred when the administrative code was revised in 1992, and subsequently re-formatted and further misinterpreted in 1999. Although the unintended error was codified in 1999, it was not published as such in the Trout Regulations Guide until the 2012-2013 fishing season, causing confusion among anglers and law enforcement. The current regulation prohibits anglers from fishing at night during the entire open season on the Brule, which reduces the overall number of harvest and catch-and-release opportunities, particularly for brown trout, which are most active during the night. Making this change will return the regulations to what is commonly understood and enforced.

SECTION 4 and SECTION 7 amend trout stream names in code to accurately reflect common names and reduce angler confusion of where regulations begin and end. In La Crosse County, the code language is changed to say "Coon creek (Bohemian Valley Creek)" instead of Bohemian Valley Creek. In Vernon County, the code language is changed to say "Coon creek from CTH P upstream to the confluence with Timber Coulee creek and Timber Coulee creek upstream to Olstad Road" instead of only Timber Coulee Creek.

SECTION 5 extends the boundary of Wisconsin River regulations (year-round open season on bass, pike, walleye) another 100 feet on the connecting Eau Claire River in Marathon County. The Wisconsin River regulations currently apply up to the first bridge on the Eau Claire River. This proposal extends the regulations another 100 feet to the Schofield Dam, which is a prominent boundary that boaters cannot travel past and is how it is currently listed in the regulations booklet. Law Enforcement also enforces Schofield Dam as the regulation boundary. This extension will provide additional fishing opportunity to that small area of the river without any biological concerns.

SECTION 6 and SECTION 8 change the regulations boundary between the Three Lakes Chain in Oneida County and the Eagle Chain in Vilas County from the county border to the Long Lake (Burnt Rollways) Dam in Oneida County. The dam has been used locally as a border and is a more obvious boundary to anglers rather than an invisible county line.

SECTION 9 changes all listing of the Neenah-Menasha dam to "dams" in 20.20(71). There are two waterways and two dams that should be clarified in code.

Phone: 608-266-0828, Fax: 608-266-2244  
Email: kathryn.stromhiorns@wisconsin.gov

**12. Place where comments are to be submitted and deadline for submission:**

Written comments may be submitted at the public hearings and by regular mail, fax, or email to the contact person listed above. Written comments may also be submitted to the Department using the Wisconsin Administrative Rules website at <http://adminrules.wisconsin.gov>. Hearing dates and the comment submission deadline are to be determined.

---

**SECTION 1. NR 20.10 (8) and (9) are amended to read:**

**NR 20.10 Special sturgeon spearing restrictions.** No person may do any of the following:

- (8) Possess a sturgeon speared from lake Butte des Morts, Poygan or Winneconne under s. NR 20.20 (73) (e) 2. b. outside the following area unless the sturgeon has been registered pursuant to sub. (10): from the intersection of highways 45 and 21 in Oshkosh west on highway 21 to highway 116; north on highway 116 to county highway B; west on county highway B to county highway D; west on county highway D to highway 49; north on highway 49 to county highway H; ~~east on county highway H to highway 10; east on highway 10 to highway 110; south on highway 110 to county highway M; south on county highway M to highway 116; east on highway 116 to highway 110; south on highway 110 to highway 45; south on highway 45 to highway 21.~~ east on county highway H to highway 110; east on highway 110 to county highway II; south on county highway II to county highway M; south on county highway M to highway 116; east on highway 116 to highway 45; south on highway 45 to highway 21.
- (9) Possess a sturgeon speared from Lake Winnebago under s. NR 20.20 (73) (e) 2. c. outside the following area unless the sturgeon has been registered pursuant to sub. (10): from the intersection of highways 10 and 114 in Menasha, east on highway 114 to highway 55; south on highway 55 to U.S. highway 151; ~~south on U.S. highway 151 to Scott street in Fond du Lac; west on Scott street to highway 45; north on highway 45 to Main street in Oshkosh; north on Main street to Waugoo avenue; east on Waugoo avenue to Bowen street; north on Bowen street to North Shore drive; north on North Shore drive to county highway A; north on county highway A to highway 114 in Neenah; east on highway 114 to the intersection of highways 10 and 114 in Menasha.~~ south on U.S. highway 151 to Winnebago drive in Fond

SECTION 9 also makes set pole/bank pole/setline fishing open seasons for catfish and rough fish the same throughout all Lake Winnebago System waters in Winnebago County. Currently all set pole/bank pole/setline regulations for rough fish and catfish in Lake Winnebago System waters are the same except for the stretch of water between Lake Butte des Morts and Eureka Dam, where a season is open for catfish and closed for rough fish. This was a result of inadvertent wording of code language and there is no biological or management reason for applying the differing regulations for these methods of fishing. This amendment will make regulations governing rough fish angling methods the same throughout all Lake Winnebago System waters of Winnebago County.

**6. Summary of, and Comparison with, Existing or Proposed Federal Statutes and Regulations:**

Authority to promulgate fishing regulations is granted to states. None of the proposed changes violate or conflict with federal regulations.

**7. Comparison with Similar Rules in Adjacent States:**

Fisheries management rules are generally similar in the states surrounding Wisconsin. Each bordering state regulates fishing by the use of seasons, bag limits and size limits. Specific seasons and bag and size limits may differ for species among the surrounding states, but the general principles are similar. Michigan, Minnesota, Iowa, and Illinois all have statewide seasons and bag and size limits for fish species, along with special or experimental regulations on individual waters.

**8. Summary of Factual Data and Analytical Methodologies:**

Fishing regulations, such as length and bag limits or season dates, are used as a tool to ensure good fishing exists into the future. The department has used different types of fishing regulations in order to: control angler impacts on fish populations; maintain numbers and sizes of fish in a lake or stream; provide different types of fishing experiences, such as fishing for dinner or for a trophy fish; and make access to fishing as fair as possible.

This rule includes minor changes to administrative code that support existing policies and fisheries management goals. The department took steps to insure the accuracy, integrity, objectivity and consistency of data were used in preparing the proposed rule and related analysis.

**9. Analysis and Supporting Documents Used to Determine the Effect on Small Business or in Preparation of an Economic Impact Report:**

The proposed rule will have minimal impact on sport anglers and is not expected to have an economic impact. As with any change in regulations, there will be a requirement for anglers to learn the new rules. However, a majority of this rule change clarifies code to reflect existing policies for which anglers must already comply. The department works to notify the public of new regulations via press releases, the internet, and fishing regulations pamphlets.

**10. Effect on Small Business (initial regulatory flexibility analysis):**

It is not expected that there will be any economic impact directly related to these rule changes. The department will conduct an economic impact analysis to determine if any individuals, businesses, local governments, or other entities expect to be adversely affected economically. The proposed rule does not impose any compliance or reporting requirements on small businesses nor are any design or operational standards contained in the rule.

**11. Agency Contact Person:**

Kate Strom Hiorns  
Department of Natural Resources  
P.O. Box 7921, 101 S. Webster St., Madison, WI 53707-7921

du Lac; west on Winnebago drive to Scott street; west on Scott street to highway 45; north on highway 45 to Main street in Oshkosh; north on Main street to Waugoo avenue; east on Waugoo avenue to Bowen street; north on Bowen street to county highway A; north on county highway A to highway 114 in Neenah; east on highway 114 to the intersection of highways 10 and 114 in Menasha.
