

## DNR Brownfield Site Assessment Grant Applicants Fall 2007, Round 9

The RR Program has received 80 applications for the Brownfields Site Assessment Grant (SAG) Program. Applicants applied for \$3.56 million in funding for the current round of grants. However, only \$1.7 million is available for this fiscal year (2008-2009).

Applicants requested \$1.57 million in small grants and \$1.99 million in large grants. Small grants range between \$2,000-\$30,000 and large grants range from \$30,001-\$100,000. This is the ninth round of SAG grants, created in 1999 by the State Legislature based upon recommendations from the Brownfields Study Group, a statewide advisory task force.

The funding has helped communities begin investigation and cleanup activities at nearly 1,185 acres in 180 communities across the state since 2000. These activities include 648 site assessments and investigations, the removal of more than 442 underground storage tanks and the demolition of more than 455 structures and buildings.
