

Completeness Check

- All information in status column must say "Complete" in green, indicating completeness
- Clicking on links in Report Component column takes you back to forms that need additional information
- When all report components are complete, click on the Submit Data button to send your data to DNR
- Data acknowledgment E-mail will be sent to waste report preparer contact that was entered in the system

12

The Completeness Check summarizes the work done and what still needs to be completed before the data can be submitted. It can be used to check your work at any time without affecting other parts of the program. Unless each item listed in the Report Component section of the page displays a green Complete message under the Status section of the page, you cannot submit the data. Clicking on the links in the Report Component section will take you directly to each of the forms with incomplete information. When all of the report components are complete, click on the Submit Data button to send your data to the DNR.
