

Download Forms

- Download facility's report forms at any phase of completion (will be marked "Draft" before report has been submitted)
- Report Downloads are formatted as Adobe Acrobat PDF files
- After submittal, Certification Form (or the Exemption Form if completed instead) must be printed, signed by waste report certifier and sent to DNR. Other forms in the report should not be sent.

9

Before or after submitting the report data for the facility, you can download the forms you are working on or have completed for your site's report, including the Certification Form. If you download your forms after completion but before submittal, the pages will display a Draft indication. The forms are downloaded in an Adobe Acrobat PDF file which can be viewed using the free Adobe Acrobat Reader program. After submittal, the one page Certification Form (or the Exemption Form if that was completed instead) must be printed, signed by the waste report certifier at your site, and sent to the DNR at the address that prints at the top of the form or to: Hazardous Waste Reporting-WA/5, WI DNR, P.O. Box 7921, Madison, WI 53707-7921. The other forms of the report should not be sent to the DNR, but should be kept for your site's records.

If the Web Reporting System was used last year to submit your facility's annual report, a PDF of that report can also be downloaded. If previous year reports are available for download they will appear on the list of your facility's report forms displayed on this screen.
