

# Great Lakes

## Project WET Educator Workshop

Friday, May 1, 2009

8:30a.m.-5:00p.m.

Crossroads at Big Creek, Sturgeon Bay, WI

Free workshop, lunch included!

Contact: Julie Hein-Frank

(920) 743-0137 or [Julie@lnrp.org](mailto:Julie@lnrp.org)

Project WET is an interdisciplinary K-12 conservation and environmental education program focused on water. This workshop will offer exciting new teaching ideas for use in science, math, social studies, language arts, and environmental education classes.

Each participant will receive the Project WET K-12 Activity Guide and a packet of Great Lakes-related resource materials.

Participants will also learn stream monitoring techniques and how to join a network of citizen groups monitoring Wisconsin's streams from DNR and UW-Extension's Water Action Volunteers.
