

Order Form: Where's the Air? CD-ROM, Teacher Activity Guide, and Posters

This kit is helpful for teachers of sciences, social studies, math, health, art, language arts, and environmental studies in infusing environmental education into the curriculum. The CD-ROM has two games on ozone (ground level and stratospheric), a map with "clickable" images for more information, and a plethora of pdf files (portable disk format) which can be easily printed and used in the classroom. The Study Guide includes a variety of related activities, from experiments and demonstrations, to word searches, conducting surveys, and map making. The kit contains a poster which depicts in cartoon style activities and natural processes that influence the quality of the air we breathe.
