

# Citizen-based Monitoring in the Classroom

## June 23-27, 2014

### UW-Waukesha Field Station

**2 free credits available**

**Free equipment**

Join scientists and educators from the Department of Natural Resources for a week of citizen science. Learn about citizen-based monitoring and how you and your students can get involved in citizen science.

We will spend time in the field learning about monitoring programs and identifying plants and animals. And, we will spend time inside experiencing

classroom activities and discussing how to integrate monitoring projects into your classroom, nature center or after school program.

Cost: \$50. Two credits are available through Viterbo. Thanks to a generous donation from the Dutton Foundation the Viterbo credits, Project WILD activity guides and a variety of equipment will be paid for by the grant.

Here is the general line-up for the week. The class meets from 8:30 am – 4:00 pm

**Monday, June 23 – Stream monitoring**

**Tuesday, June 24 – Birds and herps (frog, turtles) and Snapshot WI**

**Wednesday, June 25 – Invasives and lake monitoring**

**Thursday, June 26 – Mussels and dragonflies; additional resources**

**Friday, June 27 – Class presentations and successful programs**

If interested, contact: Carrie Morgan at 608-267-5239, [Carrie.Morgan@wisconsin.gov](mailto:Carrie.Morgan@wisconsin.gov) for registration material and a class agenda. Limited to 30 participants.
