## Brillion firm honored for conservation effort

BRILLION — Professional Plating Inc., a metal finisher, recently joined the state's Green Tier program.

Green Tier encourages businesses and organizations to go beyond current rules and regulations to reduce their impact on the environment.

Professional Plating is completing a 65,000-square-foot expansion and will likely be hiring up to 30 new people. In September the city of Brillion received a Community Development Block Grant from the state for enhancing roads, water mains and sewage services to Professional Plating and neighboring Endries International. Endries International recently completed a 101,000-square-foot addition.

Professional Plating, Inc. has been in the metal finishing business for 29 years. It provides suppliers with e-coating, plating and powder coating services.
