*The SDWLP must allocate a minimum of 15% of the available funds in each fiscal year to public water systems that regularly serve fewer than 10,000 persons. Communities marked with an asterisk meet this criterion. The policy for allocating funds to small communities is included in the SFY 2008 funding policies.

**Section 281.61(8)(a)2, Wis. Stats., limits the amount of present value subsidy (PV) any local unit of government can receive from the safe drinking water loan program in a biennium to 25% of the PV approved by the legislature. Fond du Lac is limited to a total loan amount of \$21,753,247 for its projects as this is the maximum loan the SDWLP can provide under the 25% PV limit in the 2007-09 biennium.
