Percent of Available Funds to Small Systems = **58.1%**
 Small Systems Goal = **15.0%**

* The SDWLP must allocate a minimum of 15% of the available funds in each fiscal year to public water systems that regularly serve fewer than 10,000 persons. The policy for allocating funds to small communities is included in the State Fiscal Year (SFY) 2009 funding policies.

** This project is eligible for SDWLP funds. However, the department cannot fund this project with SFY 2009 monies.

*** These projects were fully funded with SFY 2008 monies.
