

NONPOINT SOURCE -- TARGETED RUNOFF MANAGEMENT GRANTS

Authorization: s. 281.65 Wis. Stats., ch. NR 153, Wis. Admin. Code

Budget: 2009-2010 Fiscal Year = \$ 5,238,000
2010-2011 Fiscal Year = \$ 5,204,000

Objective: Improve water quality by limiting or ending nonpoint (runoff) sources of water pollution. Provide financial assistance to both county and non-permitted municipal units of governmental statewide to either construct best management practices themselves or contract with individual landowners to install such practices.

Eligibility: All Wisconsin governmental units which are not subject to a storm water permit.

Level of Assistance: Reimbursement to eligible governmental units for up to 70% of eligible costs for installing best management practices to reduce water pollution.

Priorities: Focused in critical watershed and lake areas where nonpoint source-related water quality problems are most severe and control is most feasible.

Eligible Types of Projects: Construction and installation of agricultural best management practices.

Applications: Wisconsin counties, tribes and incorporated associations apply annually; deadline is April 15th. Applicants compete statewide; applications with the highest scores are funded until all available funds have been allocated. Grants are made for specific projects and have a 2-year implementation time frame.

History: The Targeted Runoff Management grant program was created by the 1997-99 State Budget Bill (Act 27). The first applications were submitted in CY 1998, and the first TRM grants were issued in CY1999. Through CY2011, 378 TRM grants have been issued, committing \$40 million.
