

Elements by Townrange for Chippewa County

The Natural Heritage Inventory (NHI) database contains recent and historic element (rare species and natural community) observations. A generalized version of the NHI database is provided below as a general reference and should not be used as a substitute for a WI Dept of Natural Resources NHI review of a specific project area. The NHI database is dynamic, records are continually being added and/or updated. The following data are current as of 11/04/2011:

Town Range

| Scientific Name | Common Name | State Status | Federal Status | State Rank | Global Rank | Group Name |
|------------------------------------|---------------------------|--------------|----------------|------------|-------------|------------|
| <i>Cirsium hillii</i> | Hill's Thistle | THR | | S3 | G3 | Plant |
| 028N006W | | | | | | |
| <i>Etheostoma microperca</i> | Least Darter | SC/N | | S3 | G5 | Fish- |
