

NATIVE PLANT NURSERIES AND RESTORATION CONSULTANTS IN WISCONSIN

- Nurseries with material native to Wisconsin
- Nurseries with material in the Midwest, Non-Native, or Wild-Dug
- Restoration Consultants

The following companies, individuals, and organizations may be able to provide you with seed or plants native to Wisconsin or the Midwest. Except as noted, seeds and plants are generally nursery grown. Companies listed in the back section provide consulting, design, landscape installation, and/or maintenance services. Those nurseries that offer plants with seed and consulting services are listed under nursery sections.

When doing any plantings to restore or re-create a natural area it is best to obtain seeds or plants from as close to your planting site as possible. Most nurseries are willing to tell you the source of their plants. Ask to assure the source if your intent is to purchase nursery-propagated plants or seed obtained from local sources. All out of state nurseries listed are within approximately one hundred miles of Wisconsin.

This list was compiled by the Bureau of Endangered Resources, Wisconsin Department of Natural Resources (WDNR). This list does not imply any endorsement or recommendation by the WDNR. Revisions or additions to the list should be sent to BER, WDNR, P.O. Box 7921, Madison, WI 53707 (Attn: Kelly Kearns), phoned in at (608) 267-5066, or e-mailed at "Kelly.Kearns@Wisconsin.gov"

Nurseries Which Primarily Carry Plant Material Native to Wisconsin and Adjacent States

Agrecol- Agrecol carries native seed and plants of upper Midwest genotypes. Grass, sedge, legume and wildflower species for prairies, savannas, wetlands and woodland areas are sold. (See "Restoration Consultants.") 608-226-2544. Fax: 608-223-3575. ecosolutions@agrecol.com www.Agrecol.com
