

Deer Shooting Permits, 2010

By Brad Koele

Introduction

The Wisconsin Department of Natural Resources (WDNR) is responsible for issuing shooting permits for deer causing damage or a nuisance. The purpose of deer shooting permits is to reduce ongoing and future damage to agricultural crops and to reduce nuisance deer problems by shooting deer in “hotspot” locations, within and/or outside the regular deer hunting seasons. There are two types of Deer Shooting Permits issued in Wisconsin. The first is Nuisance Deer Shooting Permits issued for non-agricultural situations. Nuisance deer shooting permits are most commonly issued to municipalities and airports but occasionally are issued to private landowners for extraordinary situations. The second and most common type are Agricultural Damage Deer Shooting Permits which are one type of abatement used in the Wildlife Damage Abatement and Claims Program (WDACP). It is the policy of WDNR that farmers applying for Agricultural Deer Damage Shooting Permits also enroll in the WDACP.

Methods

Authority to remove wildlife causing damage or nuisance is granted to the Wisconsin Department of Natural Resources by State Statute 29.885. The Department issues shooting permits for deer causing damage or a nuisance in accordance with Wisconsin Administrative Code NR 12.

Results

Nuisance Deer Shooting Permits

In 2010 the WDNR issued 64 Nuisance Deer Shooting Permits. Under these permits 305 deer were harvested. This compares to the issuance of 62 Nuisance Deer Shooting Permits and 637 deer being harvested in 2009.

Agricultural Damage Deer Shooting Permits

In 2010, 500 Agricultural Damage Deer Shooting Permits were issued for agriculture damage abatement on which 2,854 deer were harvested. In 2010, Agriculture Damage Deer Shooting Permit harvest constituted 0.85% of the total deer harvest in Wisconsin (Table 1). On average, less than 6 deer were harvested under each shooting permit (range 0 - 40) in 2010. The number of Agricultural Damage Deer Shooting Permits issued statewide decreased from 2009 to 2010, 606 and 500 respectively. Statewide shooting permit deer harvest decreased 23.75% from 2009 to 2010 (Table 1). In 2010 the Department issued the fewest number of Agricultural Damage Deer Shooting Permits since 2002 when 567 permits were issued and experienced the lowest deer harvest on deer shooting permits since 1998 when 3,678 deer were harvested (figure 1).

Counties in which the greatest number of deer damage shooting permits were issued in 2010 were Marinette (44), Vernon (26), Outagamie (25), and Richland (24); Table 1. Counties with the highest number of deer harvested on deer shooting permits in 2010 were Marathon (312), Marinette (205), Grant (183), and Marquette (179); Table 1.

Deer management units in which the greatest number of deer damage shooting permits issued in 2010 were 71-CWD 26), 63A (22), 66 (22), and 51A (19); Table 2. Deer management units with the largest deer harvest on deer damage shooting permits in 2010 were 62A (198), 67A (169), 71-CWD (145), 63A (135), and 67B (133); Table 2.

Figure 1. Trends in the number of deer damage shooting permits issued and deer harvested, 1997-2010. Damage deer harvest data, 1997 – 2000, is from the Wisconsin Big Game Hunting Summary. Damage deer harvest data, 2001 – 2010, is from information collected by the WDACP from wildlife managers issuing deer shooting permits, and may differ from damage harvest data in the Wisconsin Big Game Hunting Summary. The number of deer shooting permits issued is based on information collected by the WDACP from wildlife managers and entered into the Wildlife Damage Database.

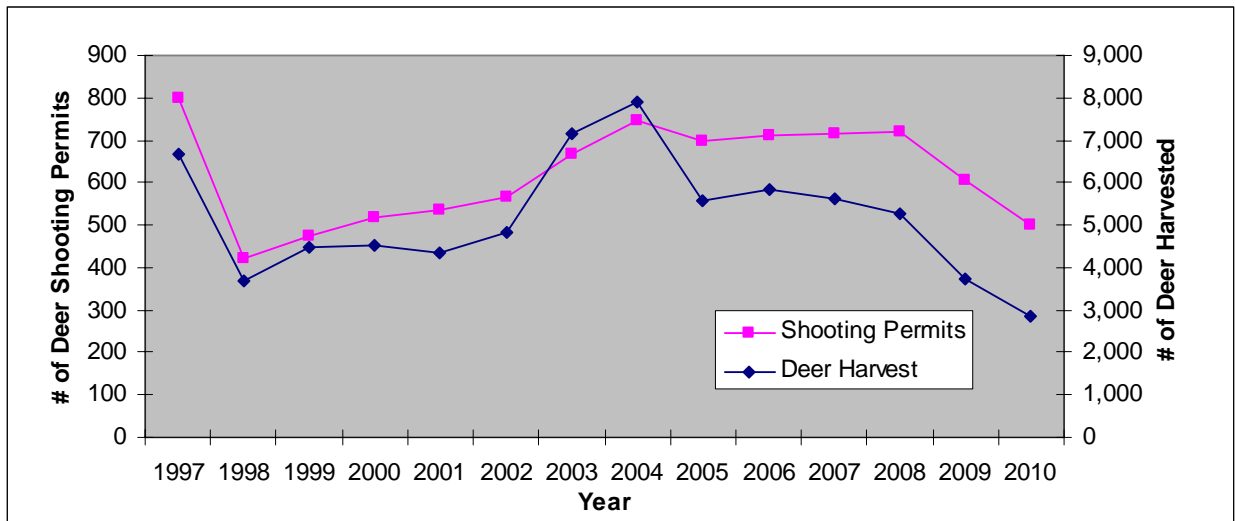

Table 1. Agricultural Damage Deer Shooting permits issued, damage deer harvest and statewide deer harvest (all seasons), 2006-2010. Statewide harvest data are from the 2010 Wisconsin Big Game Hunting Summary. Shooting permit harvest data are based on information collected by the WDACP from wildlife managers issuing deer damage shooting permits, and may differ from damage harvest data in the Wisconsin Big Game Hunting Summary. The number of deer damage shooting permits issued is based on information collected in the Wildlife Damage Database.

Table 2. Deer damage shooting permits issued, damage shooting permit deer harvest, and statewide deer harvest (all seasons) by deer management unit, 2006-2010. Statewide harvest data are from the 2010 Wisconsin Big Game Hunting Summary. The number of deer damage shooting permits issued and shooting permit deer harvest was obtained from information entered in the Wildlife Damage Database by biologists and damage technicians and may differ from damage harvest data in the 2010 Wisconsin Big Game Hunting Summary.
