

Brunet Island State Park 2011 Deer Season Special Regulations – DMU 23A

(See the 2011 Wisconsin Deer Hunting Regulations for additional regulations.)

Only holders of a 2011 Park Access Permit for deer hunting in Brunet Island State Park (Deer Management Unit 23A) may deer hunt in the park. On all vehicles that enter the park, Park admission stickers are required (\$7 per day or \$25 annually for residents; \$10 per day or \$35 annually for non-residents). Hunters are encouraged to purchase stickers before opening morning to avoid delays at the office. Camping is available during the season, in an area of the park closed to hunting.

Season Dates

- Brunet Island State Park will be open to deer gun hunting (shotguns, muzzleloaders or handguns only) November 19-27, 2011.
- Archery deer hunting will be open in the park from November 19 – January 8, 2012. Archers are required to meet blaze orange requirements November 19 – 27, 2011 when the gun season is open on the property.

Weapon Restrictions

- All legal firearms, except rifles may be used to hunt deer in the park during the November 19-27, 2011 firearm season. Please see the *2011 Wisconsin Deer Hunting Regulations* for firearm restrictions. All firearms must be unloaded and enclosed within a carrying case when in or on a motor vehicle or within a closed area of the park. Note: Muzzleloaders are considered unloaded if the cap is removed from a cap lock muzzleloader, or the flash pan is cleaned on a flint-lock muzzleloader; the ball and powder may remain in the barrel, except that the powder and projectile must be removed from the barrel of an electronic ignition muzzleloader.

Tagging Options

- **Unit 23A is NOT a Regular Unit as incorrectly stated on page 42 of the 2011 Wisconsin Deer Hunting Regulations.**
- **Herd Control - Antlerless Only regulations apply in unit 23A for the 2011 deer hunting season** (see the *2011 Wisconsin Deer Hunting Regulations* booklet for Herd Control – Antlerless Only tagging requirements).
- Archery hunters that possess a valid archery license and a 2011 Park Access Permit for unit 23A may harvest one antlerless deer with their Archery Antlerless Deer Carcass Tag.
- Gun and archery hunters may tag additional antlerless deer per Antlerless Deer Carcass Tag valid in “Herd Control & EAB” units. One comes free with each Gun or Archery Deer Hunting License.
- Additional Antlerless Herd Control Carcass Tags valid in “Herd Control & EAB” units are \$2 each (for residents and non-residents) and may be purchased online, by phone or at any license sales location.

Hunting Hours

- Hunting hours can be found in the *2011 Wisconsin Deer Hunting Regulation* booklet (pages 50 – 51). Hunters may enter the park up to one hour before legal hunting hours begin for that day.

Deer Registration

- Deer will not be registered at Brunet Island State Park. Deer must be registered in an adjacent unit of kill. A list of registration stations is available at DNR service centers or on the DNR Website (dnr.wi.gov).
- When registering an antlerless deer harvested from Brunet Island State Park, indicate unit “23A” as the Deer Management Unit of Kill.

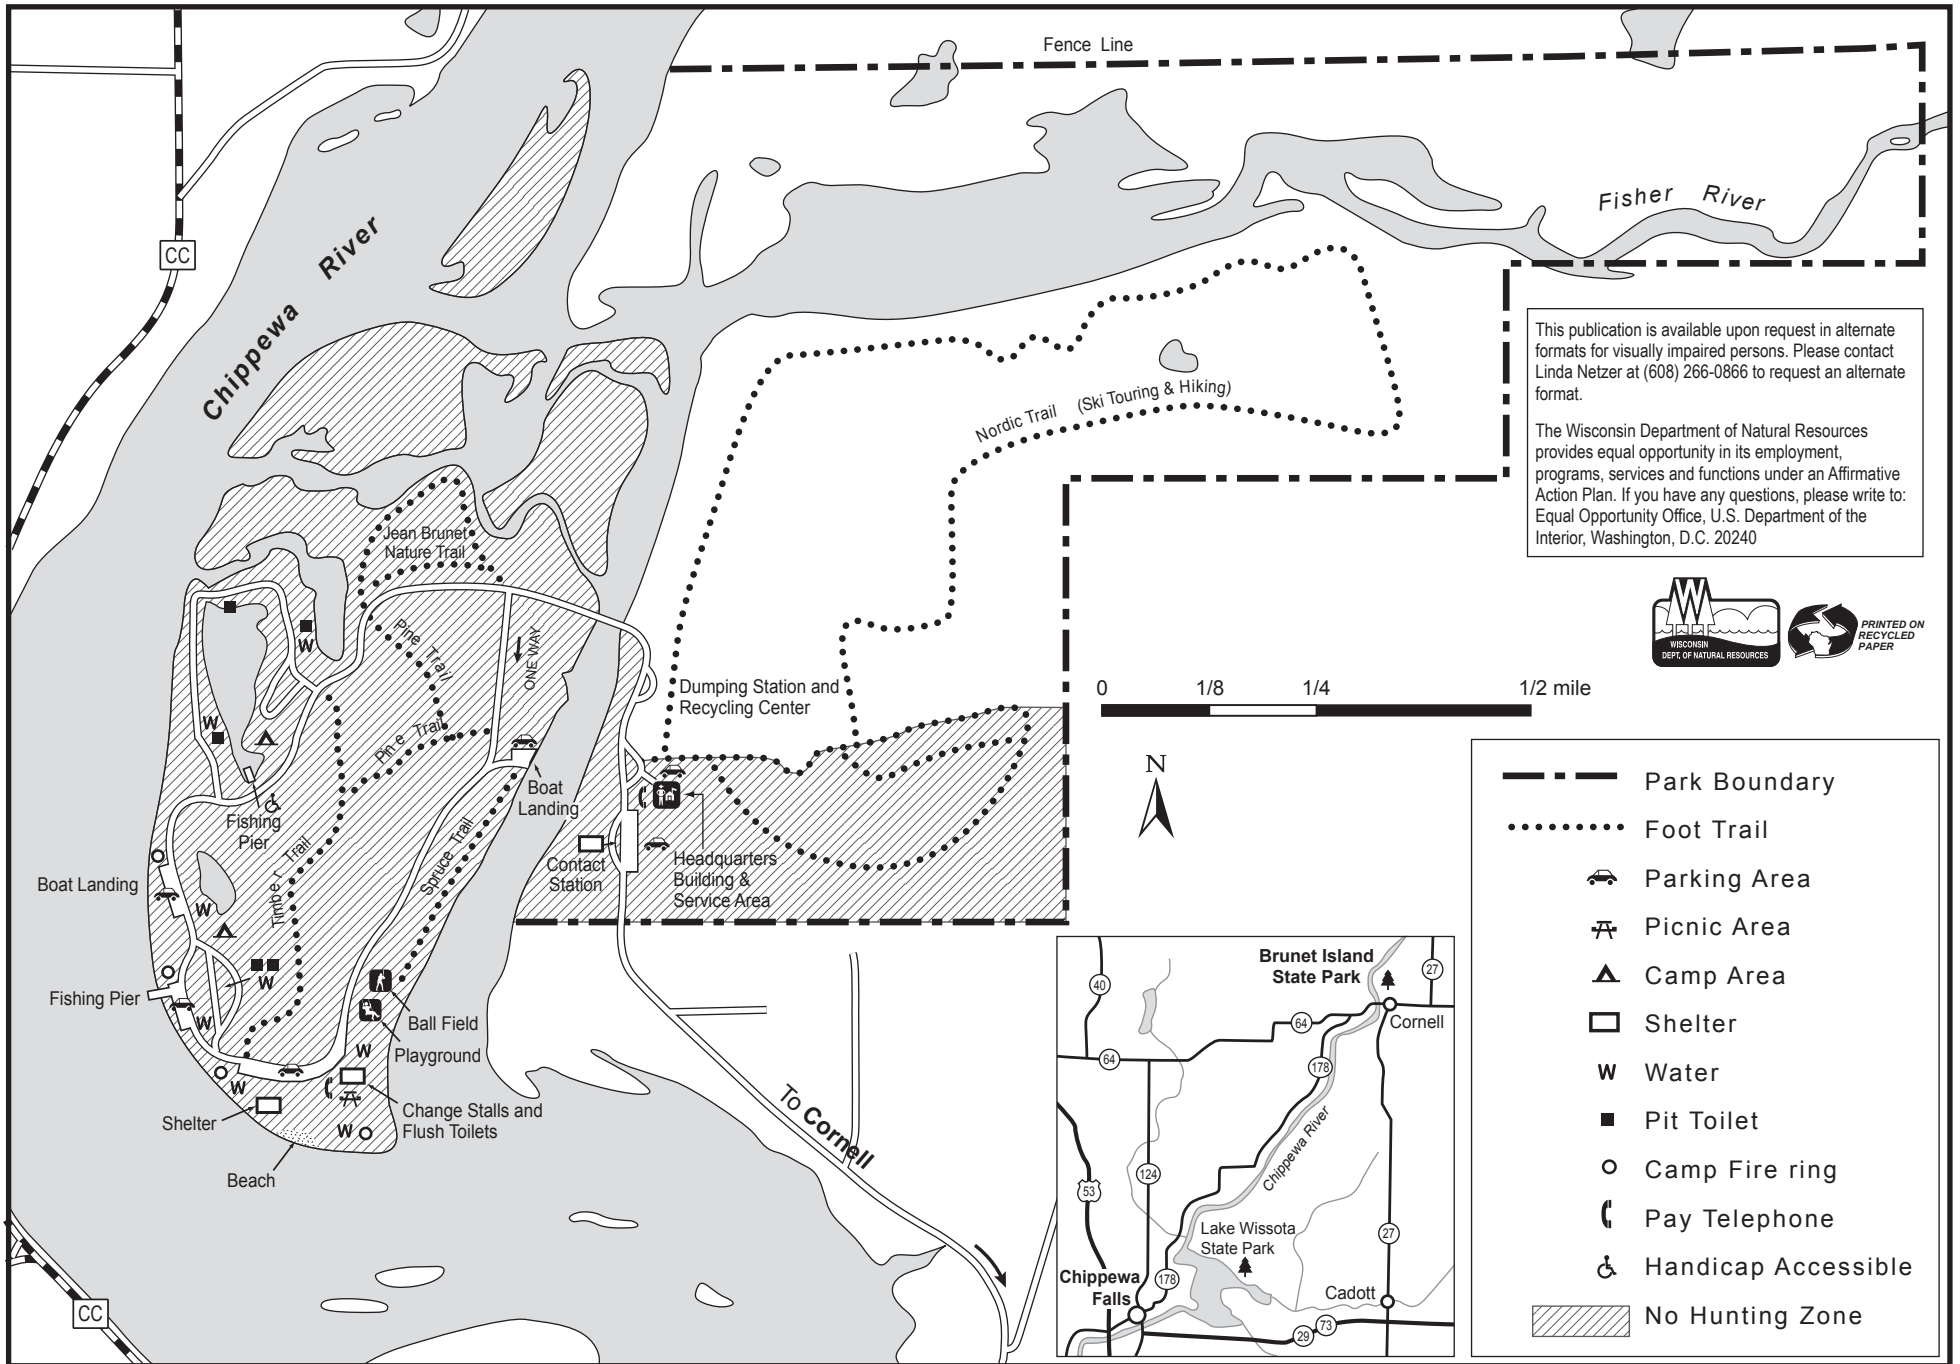

Additional Park Regulations

- Some areas of the park will be closed to hunting (see map on back). Hunters may not pursue a wounded deer moving into a closed area or drive deer from a closed area. Park employees must be informed by the hunter of the locality of any wounded animal within the closed area. Park employees may then assist the hunter in recovery of the deer.
- Group Hunting is restricted to persons in possession of a 2011 Park Access Permit for unit 23A. Persons who have filled their carcass tags may continue to engage in group hunting, provided they have their unit 23A Park Access Permits and valid gun deer licenses in their possession.
- Tree stands or elevated devices must be removed each day at the close of hunting hours. It is illegal to construct or use tree stands or elevated devices on state property that causes damage to trees. Screw-in steps damage trees and may not be used.
- Any tree stand that is not occupied during legal hunting hours shall have the owner’s customer ID number or name and address attached to the tree stand in a manner that is visible to a person on the ground.
- Ground blinds used on DNR lands must have a minimum of 144 square inches of highly visible blaze orange material that is visible 360 degrees around the blind, any time a gun deer season is in effect.
- All state regulations relating to baiting apply.
- All Parking and traffic regulations apply. Vehicles shall be operated only on established roads and parking permitted only in established parking lots.
- No fires are permitted while hunting. Be sure all smoking material is extinguished.
- **Reminder: All hunters should be aware of other recreational users in the park. Not all people will be wearing blaze orange. Be sure of your target and beyond!**
