

RESOLUTION**LEGAL RESOLUTION FORMAT**

SITUATION: Resolutions are being introduced by Conservation Congress delegates that have been submitted at their appointed committee meetings and allowed to be included in the spring questionnaire without approval of the voting members in the county they represent.

THEREFORE, BE IT RESOLVED, Not, at any time, should any resolution or question be put on the spring Conservation Congress questionnaire unless it is introduced at any of the county hearings statewide and approved by the majority of the electorate. This will alleviate delegates on appointed committees or committee members with special interests to circumvent the established process in order to 1) introduce new questions/resolutions, and 2) reintroduce questions/resolutions that have previously failed.
