

Greetings to you-

To view or print the plan, open the Portable Document Format (PDF) file labeled Pine Lake Year 2022 Comprehensive Plan. You will need to have Adobe Acrobat Reader software to access the files. If you do not have Adobe Reader, then please open the included file rp505enu.exe to install the necessary software. Double-click the file and follow the step by step instructions to install the Adobe Reader. The report maps and appendices are also included as PDF files in their own respective folders and are labeled by their section number in the comprehensive plan. The maps and appendices are not linked to the document so you will need to open them in Adobe Reader as well to view the files.

Thank you for the interest in the Pine Lake Comprehensive Plan and we hope you enjoy the document.

Sincerely,
John Williams, AICP
Senior Project Manager
Foth & Van Dyke
