

## Issues List from December 10, 2007 Meeting Minutes

### General Coordination

1. Improve NR 153 incentives to counties for conducting TRM projects.
2. Discuss how to create connection between TRM projects and LWRMP priorities

### Targeting Funds

3. Discuss ways (e.g. WBI) to target funds to effectively address water quality problems.
4. Reconsider proposal to place limits on watershed size as a means to target funds.
5. Place adequate emphasis on projects that prevent degradation of higher quality waters.
6. Need more discussion of the NPS project category.
7. Discuss role of TRM in addressing NR 243 Notices of Discharge
8. Reconsider regional boost (automatic grant to highest scoring project in each region)
9. Discuss what detailed scoring system would look like

### Budgeting

10. Reconsider proposal to limit amount of grant funding any one applicant can receive.
11. Reconsider cap for projects where grant would be inadequate to meet NR 151.
12. Base sub-program allocations on relative demand from prior year.

### Program Issues

13. Improve project & program evaluation criteria.
14. Clarify screening criteria for determining if a local NR 151 program is adequate.
15. Discuss flexibility in using project funds after project goals are met

### Additional Issues (Already discussed or may be outside scope of NR 153)

16. Clarify TMDL process (Discussed earlier today)
17. Inter-agency coordination in cost-share rates & procedures (NR 154, ATCP 50)
18. Evaluate cost-effectiveness of BMPs (NR 154, ATCP 50)
