**(715) 758-2178 (office)**

**Below is the information contained in each tab of this NMP:**

**Tab 1** – Contains the NMP permit application narrative along with the appropriate checklists and other supporting documentation.

**Tab 2** – Contains the field maps for Ebert Enterprises, LLC. Soil maps are also contained within this tab.

**Tab 3** – Contains the manure spreading plan reports for the 2013 through 2017 crop years.

**Tab 4** – Contains the manure application spreading restriction maps for the fields operated by Ebert Enterprises, LLC. Restriction maps are provided from the DATCP MMAS. The MMAS maps contain notes to highlight the additional restrictions contained in Wisconsin Administrative Code NR 243. DNR Surface Water Data Viewer maps are also contained within this tab to identify 303d, ORW and ERW water bodies. These maps also identify wetlands.

**Tab 5** – Irrigation information.

**Tab 6** - Contains the current and proposed animal numbers and manure generation values at Ebert Enterprises, LLC. Contains the manure test results.

**Tab 7** – Contains the SNAP-Plus soil test summary for all of the fields in this NMP. All samples were analyzed at AgSource Laboratories or Rock River Laboratory which are certified by the Wisconsin Department of Ag, Trade and Consumer Protection.

**Tab 8** – Contains stacking site information for solid manure.

**Tab 9** – Contains the procedures to be used for emergency winter applications of liquid and/or solid manure along with the fields that are to be used for emergency winter applications for the 2013 crop year if the need arises.

**Tab 10** – Contains emergency response information for Ebert Enterprises, LLC.

**Tab 11** – Contains copies of Wisconsin Administrative Code NR 243, NRCS Practice Standard 590 and Table 9 – Temporary, Unconfined Stacks of Manure and Derivatives Outside the Animal Production Area from NRCS Practice Standard 313.

**Tab 12** – Contains reports from the SNAP-Plus program. Reports include the Field Data and 590 Assessment Plan, Application Restriction Compliance Check, Sorted by crops report for 2013 to 2018, and the Lime Application Report.

**Tab 13** - Contains the soil reports for the "w" soils that are located in fields operated by Ebert Enterprises, LLC.

**Tab 14** -- Contains blank records to be used by Ebert Enterprises, LLC to track manure hauling and distribution activities. Completed records will be kept onsite for a minimum of 5 years.

**Tab 15** – Empty tab to be used for future annual reports.
