

Wisconsin 590 Nutrient Management Application Restrictions

Fall N Restrictions

SWQMA 300'/1000' Buffers
(No Winter Application,
Other Non-Winter Restrictions)

PLSS Sections

Sources:
USDA-NRCS SSURGO
2008 NAIP Imagery
WI-DNR 24k Hydro
WI DOT Roads

No Winter Application (slope > 12%)

Perennial Streams

Winter Restrictions (if slope > 9%)

Intermittent Streams

SWQMA - 300' BUFFER

This map has been developed utilizing the nutrient application restrictions from the September 2005 Wisconsin NRCS 590 Nutrient Management Practice Standard. This map is an initial inventory of nutrient spreading risks which must be field verified to identify other risk areas such as concentrated flow channels, wetlands, and conduits to groundwater. See the "Considerations" section of the 590 practice standard for additional planning suggestions.
