

AIR POLLUTION CONTROL OPERATION PERMIT

EI FACILITY NO. 241031340

PERMIT NOS. 07-DJH-300-OP

TYPE: Major, Part 70 Source

THIS OPERATION PERMIT IS FOR THE GENERATION OF EMISSION REDUCTION CREDITS BY LIMITING THE EMISSIONS FROM A SOURCE

In compliance with the provisions of Chapter 285, Wis. Stats., and Chapters NR 400 to NR 499, Wis. Adm. Code,

Name of Source: Lesaffre Yeast Corporation

Street Address: 2702 West Greves Street
Milwaukee, WI

Responsible Official & Title: Geoff O'Connor, CFO and Treasurer

is required to operate the facility as described in the plans and specifications dated August 23, 2007 in conformity with the conditions herein.

This authorization requires compliance by the permit holder with the emission limitations, monitoring requirements and other terms and conditions set forth in Parts I and II hereof.

Dated at Milwaukee, Wisconsin this 17th day of January, 2008.

STATE OF WISCONSIN
DEPARTMENT OF NATURAL RESOURCES
For the Secretary

By /s/ Daniel Schramm
Daniel Schramm, Air Management Supervisor
Milwaukee Service Center

A. **EMISSION REDUCTION CREDIT REQUIREMENTS**

1. The permittee shall not operate any previously permitted air pollution sources as stated in the shutdown credit permit application.
(sec 285.65(5), Wis. Stats.)
2. The Department certifies a VOC emission reduction of 68.7 TPY as a result of the modification. Quantification and use of this emission reduction is subject to applicable state and federal requirements and to subsequent rule development by the Department.

Note: The 68.7 TPY credit is calculated by subtracting 32.9 TPY from the 101.6 TPY decrease in emissions. The 32.9 TPY were agreed to be not usable for emission reductions per a consent agreement and final order entered into with United States EPA on June 21, 2007 (EPA Docket No. CAA-05-2007-0002). All sources at the facility have ceased operation. Production has been moved to another facility.
