**Re: Notification of Transfer of VOC Emission Reduction Credits from
S C Johnson & Son to Johnson Wax Professional and
Johnson Polymer, Inc.**

Dear Jeff:

The purpose of this letter is to notify the Department that we have recently sold a total of nine tons of VOC emission reduction credits to Johnson Wax Professional (JWP) and Johnson Polymer, Inc. (JPI). Specifically, JWP has purchased three tons and JPI has purchased six tons of ERCs from us.

According to our records prior to this sale, S. C. Johnson & Son (SCJ) owned a total of 124 tons of VOC ERCs previously certified by the Department. That total breaks down as follows:

- 15 tons of ERCs transferred to us from Marconi Communications, per Mick Klein's letter to Dan Hellenberg, DNR SE Region, on January 12, 2001. These credits were generated and certified under Operating Permit 99-DJH-281-OP, and subsequently purchased by SCJ.
- 16 tons of ERCs remaining under SCJ's ownership, following satisfaction of emission offset obligations required under DNR Construction Permit 94-MWH-087, and the subsequent purchase of two tons of ERCs by JWP and JPI, per my letter to you on December 4, 2001.
- 93 tons of ERCs transferred to us from Design House, Inc, per Don Gallo's letter of February 11, 2002 to you. These credits were generated and certified under Operating Permit 01-JCH-036-OP-R1, dated January 7, 2002, and subsequently purchased by SCJ.

Mr. Jeff Hanson

April 15, 2002

The nine tons of VOC ERCs being transferred per this notification have been sold from the ERCs we purchased from Design House.

As a result of this sale, SCJ now owns a total of 115 tons of certified VOC ERCs.

Please let me know if you have any questions or require further information.

Sincerely,

Mark Steinberg CEA, QEP, CHMM, REM
Air Quality Manager
