Only received 6 bids from 4 different contractors on 3 sales. One sale did not receive any bids. This sale was smaller in comparison and possibly would need frozen ground unless an extremely dry summer. Prices received were very high this bid opening. This is due to late spring / early summer start dates on the 3 sales that sold and also some high quality sawtimber sized red pine. The red pine volume is all co-mingled as one price per ton. Average return per cord on red pine was \$90 per cord, with one bid over \$100 per cord. Average dollar per acre sold is \$1,133.65 which is remarkable considering 75% of the acres sold will be thinned and available for harvest in another 10 years. No bids received on the biomass (tree tops) for the 4th consecutive bid opening.

Only received 12 bids from 6 different contractors.

Very happy with the bid prices considering over 65% of the wood is winter only and has some longer skids and long main roads leading into the sale areas that will need to be frozen down.

Good work Mr. Brown and Mr. Keranen
