

**2017 Priority Species of Greatest Conservation Need**

The following is a list of SGCN that are dependent on oak savanna, prairie, or oak woodland habitat within the Driftless Area. These SGCN will benefit directly or indirectly from habitat work conducted within these targeted native plant communities. The **bolded and italicized** SGCN are ones that will be targeted for specific surveys or monitoring under this grant.

<b>BIRDS</b>	<b>MAMMALS</b>
<i>Acadian flycatcher</i>	Northern long-eared bat
<i>American woodcock</i>	Prairie vole
<i>Bell's vireo</i>	Woodland vole
<i>Black-billed cuckoo</i>	
<i>Blue-winged warbler</i>	<b>HERPS</b>
