Planting Needed:

Phone&Email: troydere@gmail.com
Property Address:

Station contact: Grantsburg RS 715 463-2897
Servicing Forester: Paul Snouffer

Stand Description:

A mixed stand of mature oak, aspen and jack pine with a good pine understory. The mature oak and jack pine were the most affected by the wind.

Management Objectives/Prescriptions:

The objective is to salvage the damaged timber and promote the pine understory.

Harvest the mature oak, jack pine and aspen and all down, broken, and root sprung trees as well as all trees with damage to the crown. Oak wilt is present and the spread must be minimized. Damage to the residual trees must be kept to a minimum. A skilled operator is required. Proper BMPs must be used around any wetland.
