

ATTACHMENT II

Cortec Spray Technologies receives many of our energy projects/ideas from our on site employees, from other Cortec divisions having success in energy conservation projects as well as solicited help from engineers specializing in energy conservation. These energy saving ideas/success are shared between Cortec's divisions via Cortec's company wide monthly EMS committee video conference.

Cortec spray technology strives to reduce reuse recycle all production/office consumables as well as employee consumables.

Cortec Spray Technologies has to date implemented/researched:

- Off spec formula re-blending where permitted to eliminate waste as much as possible.
- use timed production lighting to reduce energy consumption
- installed skylights in many production areas to use natural light versus electrical
- utilizes consultants to reduce energy consumption/currently awaiting proposal for heat reclamation system
- quoted replacing warehouse lights to more energy efficient system

Moving forward Cortec Spray Technologies will share and research methods to be Greener and Greener to preserve the environment for future generations.

Subject: No Exposure Certification for Exclusion from WPDES Storm Water Permitting

Facility Name: Cortec, Spray Technologies Division
FIN: 8328
Location: Spooner WI

Dear Sir:

Thank you for submitting the No Exposure Certification for Exclusion from WPDES Storm Water Permitting. This letter acknowledges receipt of your No Exposure Certification. By submitting the No Exposure Certification you are certifying that there are no discharges of storm water contaminated by exposure to industrial materials and activities from the entire facility. Please be aware that the Department has not completed a site inspection to confirm your certification.

Please be advised per s. NR 216.21(3)(b)4., Wis. Adm. Code, a No Exposure Certification must be submitted for this site every five years. Also, s. NR 216.21(3)(d)2., Wis. Adm. Code, requires that if site conditions change and industrial materials and activities result in exposure to rain, snow, snowmelt and/or runoff, then the exclusion no longer applies. If your facility does not meet the exclusion, you must immediately contact the Department and apply for proper storm water permit coverage.

If you have any questions, please contact me at 715-395-6907.

Sincerely,

Ellen Granquist
Storm Water Specialist

CERTIFICATE OF REGISTRATION
FOR REGISTRATION YEAR(S) 2008-2009**

Registrant: CORTEC SPRAY TECHNOLOGIES
Attn: ROGER HANSON
1300 SOUTH RIVER STREET
SPOONER, WI 54801

This certifies that the registrant is registered with the U.S. Department of Transportation as required by 49 CFR Part 107, Subpart G.

This certificate is issued under the authority of 49 U.S.C. 5108. It is unlawful to alter or falsify this document.

Reg. No: 062608 552 060Q Issued: 06/26/2008 Expires: 06/30/2009

Record Keeping Requirements for the Registration Program

The following must be maintained at the principal place of business for a period of three years from the date of issuance of this Certificate of Registration:

- (1) A copy of the registration statement filed with PHMSA; and
- (2) This Certificate of Registration

Each person subject to the registration requirement must furnish that person's Certificate of Registration (or a copy) and all other records and information pertaining to the information contained in the registration statement to an authorized representative or special agent of the U. S. Department of Transportation upon request.

Each motor carrier (private or for-hire) and each vessel operator subject to the registration requirement must keep a copy of the current Certificate of Registration or another document bearing the registration number identified as the "U.S. DOT Hazmat Reg. No." in each truck and truck tractor or vessel (trailers and semi-trailers not included) used to transport hazardous materials subject to the registration requirement. The Certificate of Registration or document bearing the registration number must be made available, upon request, to enforcement personnel.

For information, contact the Hazardous Materials Registration Manager, PHH-62, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, 1200 New Jersey Avenue, SE, Washington, DC 20590, telephone (202) 366-4109.

Re: Light fixture replacement in the Warehouse

Hello Ed,
Our Proposal is based on the following general items:

- Taxes are included
- Bonds are not included, but are available if needed
- NFPE 70 requirements(Arch Flash Protection)will be followed, some momentary power outages may be required

To replace the existing (8) light fixtures in the back Warehouse with (8) 6-lamp T5HO light fixtures. These fixtures will be identical to the High Bay fluorescent type fixtures that we provided in your production area.

This quote is based on using your electric lift. If we need to provide a lift, please add \$220.00 to this quote.

We will take down the existing fixtures, but lamp and ballast disposal has not been figured in this budget. If you would like us to provide ballast and lamp disposal I can provide you a separate cost for this.

Bob Burnett *Rebate available*
Rebate = doing it.

Warehouse Light Fixture Replacement-----\$2,681.00

Note, further savings could be realized if you like to proceed with this work on a Time/Material basis not to exceed the above proposal.

Thank you for this opportunity to provide you with a quote for this project. Please feel free to call at your earliest convenience should you have any questions.
Sincerely,

Dan Curran
Project Manager
