Totals - Initial ratings	Prohibited			Restricted				Watch			Non-restricted				
Number of votes	x			xxxxxx											

Recommended Classification : R

Comments:

(9) In northern areas common in disturbed areas, locally abundant, large seed bank, suppressing forest regeneration. May favor earthworm populated areas. Tolerant of full sun and shade, moist to dry soils. (6) Restricted unless info indicating prohibited feasible in southern areas.

Totals - 2nd round	Prohibited	Restricted	Watch	Non-restricted
Number of votes				

Final Recommended Classification : R*

Comments:

* Investigate for possible prohibited classification in southern areas.
