

File# FI 1149 – Langlade County - 41.7 acres

The Department acquired this property for \$14,000 in 1974. Willow Springs pond is located on the property, an approximate 5 acre pond. This is high quality spring pond and trout water. There is approximately 770 feet of two bank frontage on an unnamed stream flowing through the northeast portion of the parcel. The Department has made investments in a parking lot, road improvements, spring pond dredging, annual inspections, litter pick up, sign maintenance and law enforcement patrols on the property. The property has high public use for fishing, hunting, sightseeing, hiking and public access to the spring pond.

The property is landlocked, but surrounded by County forest. There is a maintained dirt road across County land leading to a parking lot at the spring pond.

The Department recommends retaining this parcel.
