

## File# FI 631 - Green Lake County - 16.4 acres

The Department acquired this property for \$3,500 in 1967. The property was originally purchased to be used for a fish rearing station.

The property has approximately 1,217 feet of agricultural drainage ditch crossing it and is a wetland property located within the flood zone. The property has road access from STH 49. There are no infrastructure improvements and parking is alongside the road. The Department has made minimal investments in managing and maintaining the property. The Green Lake Association has contacted the Department with interest in acquiring this parcel.

The Department recommends that the Natural Resources Board offer this land for sale under the authority granted by s. 23.145 Wis. Stats.
