BRSF Tract 7-15
Railroad Salvage
T20N-R2W Sec 20, 21, 28, 29

Sale size: 28 Acres
Contract Period: 1 year

Estimated Volume

<u>Species</u>	<u>Cord Equivalent</u>	<u>Tons</u>	<u>Advertised Value/Ton</u>
Red Pine	(420)	945	\$8.60

Estimated Price for Entire Sale = \$8,127.00

Purpose of Sale:

To salvage a dying red pine stand.

Special Operating Requirements and Slash Disposal:

1. This sale has no seasonal restrictions, and the ground is sandy and flat to gently rolling.
2. **Watch out for the overhead powerline!**
3. All trees greater than 4 inches in d.b.h. must be cut or knocked down in the Clearcut and Clear Area, except those marked with a red X, whether alive or dead. We do not want any trees left standing in this area in order to promote decay of residual woody debris.
4. No biomass harvesting is allowed on this sale due to low nutrient soils.
5. All pine products cut between March 1st and August 30 must be removed from the sale area within three weeks from time of cutting. Pine products cut during the remainder of the year must be removed before March 15th.

General Requirements:

1. All designated tree species must be cut and forwarded concurrently with the sale.
2. All stumps shall be no higher than the stump diameter, or 10 inches, whichever is less.
3. Utilization: cut and use all designated trees with one or more 100" sticks to a 4" top diameter.
4. Notify the DNR forester before you start the job, and each time you pull out or return to the job.
5. Any trees cut or pushed over for new roads or landings must be utilized or cleaned up to the DNR Forester's satisfaction.
6. All landings, roads and berms must be approved in advance by a DNR forester before operations begin and shall be restored to the forester's satisfaction following the harvest completion.
7. Contact the town of Millston prior to beginning logging operations at: 715-284-0913. A road use permit (no fee) is required at all times in this township.
6. **Wisconsin's Best Management Practices for Invasive Species applies – contractor must clean equipment before entering and leaving the sale area! This involves brushing away all dirt and cleaning air intakes of debris.**
