

BRSF Tract 3-17
Rumble Strip Sale
T20N-R2W Sec 18, 19

Sale size: 104 Acres
Contract Period: 2 years

<u>Species</u>	<u>(Cord Equivalent)</u>	<u>Estimated Volume</u> <u>Tons</u>	<u>Advertised Value / Ton</u>
Red Pine *	(890)	2010	\$19.40

* Includes approximately 22 MBF sawlog volume

Estimated Price for Entire Sale = \$38,994.00

Purpose of Sale:

The objective of the sale is to thin the red pine stands to increase growth and vigor.

Special Operating Requirements and Slash Disposal:

1. This sale has no seasonal restrictions, however, **this sale requires the Purchaser to complete Annosum root rot preventive treatment if harvesting between 4/1-11/30.** Treatment must be performed by a Certified Pesticide Applicator (documentation required). Treatment involves chemically treating all fresh-cut stumps of pines of merchantable size by applying either Sporax (sodium tetraborate decahydrate) or CELLU-TREAT (disodium octaborate tetrahydrate). Treatment shall be made the same day as harvest and a dye product shall be added to liquid solutions for inspection purposes. The cost of this application can vary based on application method and harvest conditions, but should be considered when submitting bids on this timber sale.
2. **Contact the DNR Forester prior to starting up the sale.**
3. No biomass harvesting is allowed on this sale due to poor soil nutrient levels.
4. All pine products cut between March 1st and August 30 must be removed from the sale area within three weeks from time of cutting. Pine products cut during the remainder of the year must be removed before March 15th.
5. Slash must be evenly lopped / scattered within the sale boundary and shall be deposited a minimum of 10 feet from the mowed right-of-way of any highway or town road. Slash within 50 feet of all town roads must lie within 2 feet of the ground.

General Requirements:

1. All landings must be approved by a DNR forester before operations begin.
2. All stumps shall be no higher than the stump diameter, or 10 inches, whichever is less.
3. Do not cut or knock down any dead or hollow trees. These are important wildlife habitat. Any that must be cut for safety reasons, shall be left in large pieces on the forest floor – not utilized for forest products.
4. Utilization: cut and use all designated trees with one or more 100” sticks to a 4” top diameter.
5. Care should be exercised to not damage residual trees.
6. Notify the DNR forester before you start the job, and each time you pull out or return to the job.
7. Any berms removed must be put back upon completion of the sale.
8. Any trees cut or pushed over for new roads or landings must be utilized or cleaned up to the DNR Forester’s satisfaction.
9. Contact the town of Millston prior to beginning logging operations at: 715-284-0913
10. **Wisconsin’s Best Management Practices for Invasive Species applies – contractor must clean equipment before entering and leaving the sale area! This involves brushing away all dirt and cleaning air intakes of debris.**

BLACK RIVER STATE FOREST
 TIMBER SALE MAP
