Compartment 39A

Town of Lake Tomahawk, Oneida County, T38N-R7E, Sections 21 & 28

Master Plan: Management Area 6 -- Oneida Sandy Plains -- Forest Production

Scale: 4" = 1 Mile
1:15,840

Legend

-  NH Oak C39A
-  Section Corner
-  Highways and Town Roads
-  Snowmobile Trails
-  Woods Roads
-  Lakes
-  Private Lands

The objectives for this part of the Forest are to increase the presence and age of red pine and white pine in all timber types. Additional objectives are to manage for current levels of oak and to look for opportunities to expand the red oak type especially in mixed stands.

This northern hardwood stand has a strong component of oak. An all-aged harvesting technique will be employed favoring oak as residuals where appropriate. Canopy gaps installed will be on the larger end of the acceptable range to favor the establishment of oak.

Seasonal restrictions related to oak wilt will be imposed. Biomass harvesting will be allowed.
