

## Reporting Requirements

- All sites provide site activity information for both report year and current year in these hazardous waste activity areas:
  - **Generator** (in each column, you must select one of the four categories listed)
  - **Treatment/Storage/Disposal Facility (TSD)** as a receiver of hazardous waste from off-site or not a receiver
  - **Publicly Owned (wastewater) Treatment Works (POTW)** that accepts hazardous waste
  - **Permanent Household and Very Small Quantity Generator Hazardous Waste Collection Facility** that ships off-site to a licensed or permitted TSD

5

The Reporting Requirements screen has two main purposes. All sites must provide the minimal site activity information for both the report year and the current year in four hazardous waste activity areas: generator, treatment/storage/disposal facility (TSD), publicly owned wastewater treatment works (POTW) and permanent household and very small quantity generator hazardous waste collection facility that ships off-site to a licensed or permitted TSD facility.

You should determine what type of generator you are based on the definitions of large quantity generator, small quantity generator, very small quantity generator and non-generator. One of the four generator activity categories must be selected in each column. If your site's generator activity has changed within the last year, it's possible that one category will accurately describe your generator status for the report year and a different category will need to be selected to describe your current generator status.

If any of the other hazardous waste activity areas shown apply to the site you are reporting for, click the Yes button in the appropriate column and section to indicate the activity in the report year and/or the current year.

## REPORTING REQUIREMENTS

Select the activities that accurately describe your site's hazardous waste status during calendar year 2012, AND your site's status in 2013.

### Hazardous Waste Activity (at your site)

During 2012	During 2013	Generator of Hazardous Waste
<input type="radio"/>	<input type="radio"/>	Generator Status as of 12/27/2012 - Small Quantity Generator
<input type="radio"/>	<input type="radio"/>	Large Quantity Generator Generate in any calendar month 1,000 kg (2,205 lbs) or more of hazardous waste; or Generate in any calendar month, or Accumulate at any time, more than 1 kg (2.2 lbs) of acute hazardous waste or more than 100 kg (220 lbs) of acute hazardous waste spill cleanup material.
<input type="radio"/>	<input type="radio"/>	Small Quantity Generator Generate in every calendar month less than 1,000 kg (2,205 lbs) of hazardous waste; and Accumulate at all times no more than 6,000 kg (13,320 lbs) of hazardous waste; and Generate in every calendar month, and Accumulate at all times, no more than 1 kg (2.2 lbs) of acute hazardous waste and no more than 100 kg (220 lbs) of acute hazardous waste spill cleanup material.
<input type="radio"/>	<input type="radio"/>	Very Small Quantity Generator Generate in every calendar month no more than 100 kg (220 lbs) of hazardous waste; and Accumulate at all times no more than 1,000 kg (2,205 lbs) of hazardous waste; and Generate in every calendar month, and Accumulate at all times, no more than 1 kg (2.2 lbs) of acute hazardous waste and no more than 100 kg (220 lbs) of acute hazardous waste spill cleanup material.
<input type="radio"/>	<input type="radio"/>	Non Generator Generate no hazardous waste.

Yes  No     Yes  No    **Treater, Storer, or Disposer of Hazardous Waste at your site AND a Receiver of Hazardous Waste from Off-site**

**OR**

Yes  No     Yes  No    **Treater, Storer or Disposer of Hazardous Waste at your site AND NOT a Receiver of Hazardous Waste from Off-site**

(These selections only apply if you perform any treatment, storage, or disposal activity at your site that requires a hazardous waste facility license <sup>1</sup> .

Yes  No     Yes  No    **Publicly Owned (Wastewater) Treatment Works (POTW) that accepts hazardous waste (via truck, rail, or dedicated pipe) for treatment, and complies with s. NR 670.001(3)(b)9.**

Yes  No     Yes  No    **Permanent Household and Very Small Quantity Generator Hazardous Waste Collection Facility that ships hazardous waste off-site to a licensed or permitted hazardous waste treatment, storage or disposal facility, or to a recycling facility**  
DO NOT select if you only ship hazardous waste to other permanent collection facilities. You will be directed to complete the Reporting Exemption Form.

## Reporting Requirements (cont.)

- Guide to the rest of the reporting program
- Determines which of four forms user must fill out—Forms IC, FW, GM, WR—based on activities indicated in report year column
- Also supplies the Exemption Form for sites not required to report additional information (very small quantity generators and non-generators with no activity as TSD, POTW or Permanent Collection Facility)

6

The Reporting Requirements screen is also the guide to completing the Hazardous Waste Annual Report. Depending on the choices you make in the report year column, the program will tell you which of four possible forms must be filled out for the report year. The program will also supply the Exemption Form to the user if the facility is not required to report additional information. This applies to very small quantity generators and non-generators with no activity as a treatment/storage/disposal facility, a publicly owned wastewater treatment works or a permanent household and very small quantity generator hazardous waste collection facility that ships hazardous waste off-site to a licensed or permitted hazardous waste TSD facility.

The following pages show some examples of what forms are required when certain activities are indicated in the report year column of the Reporting Requirements screen.
