RE: High Capacity Well Application for Jason Biddick of Biddick Inc., 115 South East Street, Blue River, Wisconsin, Town of Watterstown Portland, Grant County.

Dear Jared:

On behalf of Jason Biddick of Biddick Inc., Sam's Well Drilling Inc., proposes to construct a high-capacity well on land that is owned by Sally Kinney of Cloverland Farms in section 12 of the town of Watterstown in Grant County. The well will be used for irrigation purposes on the farm. The enclosed application is for this high-capacity well.

There are two other wells on the property at this time. They are both sand points that supply water to the farm animals present on the site. I could not find the Well Construction Reports for either of these wells. The house on the site is also supplied by city water and sewer provided by the village of Blue River. If you have any questions regarding this project, please contact me at (920) 326-5193.

Sincerely,

SAM'S WELL DRILLING, INC.

Jeff Kramer, P.G.
Hydrogeologist

Agent authorized to submit this application on behalf of the property owner, Sally Kinney of Cloverland Farms.

High Capacity, School or Wastewater Treatment Plant Well Approval Request

Form 3300-295 (R 5/15)

Notice: Pursuant to §§ NR 812.09(4)(a) & (b), Wis. Adm. Code, prior Department of Natural Resources (DNR) approval is required for the construction, reconstruction or operation of a high capacity well or system of high capacity wells, a school well or a wastewater treatment plant well. This form is required to be completed to request approval for installation of a well or wells on a high capacity property, to modify a well on a high capacity property, or the construction or reconstruction of a school or wastewater treatment plant well. Personally identifiable information collected will be used for administrative purposes and may be provided to requesters to the extent required by Wisconsin's Open Records law (s.19.31-19.39, Wis. Stats.).

Submittal Purpose

Check all that apply

Non-Potable Well(s) Potable Well(s) Requires Potable Attachments

Install one or more new wells with a capacity greater than 70 gallons per minute.

Install one or more new wells with a capacity less than 70 gallons per minute on a high capacity property.

Replace one or more wells with a capacity greater than 70 gallons per minute.

Replace one or more wells with a capacity less than 70 gallons per minute on a high capacity property.

Reconstruct one or more wells with a capacity greater than 70 gallons per minute.

Reconstruct one or more wells with a capacity less than 70 gallons per minute on a high capacity property.

Increase pumping rate in one or more wells to a rate greater than previously approved.

Renew a previous approval that has expired.

Other (please describe: School, WWTP etc.) _____

Project Description

Provide a brief description of the proposed project including the number of potable wells to be installed. For non-potable wells include number of acres and expected crop rotation for agricultural irrigation wells. For potable wells serving livestock note if the facility is currently or plans to become a concentrated animal feeding operation (CAFO).

1.) 110 ACRES
2.) CORN, SOY BEANS, OATS, POP CORN

Required Enclosures

High Capacity Well Application (Form 3300-295) Potable Attachment: if a proposed well is potable (Form 3300-295A)

\$500 application fee (see s. 281.34 (2), Wis. Stats.) Aerial or Plat Map with property boundaries outlined

Well Construction Reports (if available) for existing wells Variance Request, if needed (Form 3300-210)
