Project Description

A "Natural body of water" is defined in Wisconsin law as any spring, stream, pond, lake or wetland that was historically present in a natural state but may have been physically altered over time except any waterbody that has been permitted by the Department under Ch. 30 or 31, Wis. Stats. or NR 299 Water Quality Certification and not declared public under s. 30.19(5), Stats. A freeze-out pond is defined in Wisconsin law as a natural, self-contained body of water in which freezing or anoxic conditions prevent the body of water from naturally sustaining a fish population at least twice every 5 years.

Operating a fish farm in a Natural Body of Water requires a permit under NR 19, Wis. Adm. Code.

I am applying for:

- NR 19 Permit Renewal: Grandfathered Permit** – for continued use of a natural waterbody that was licensed as a private fish hatchery on January 1, 1998.
- NR 19 Permit Renewal: Freeze-out Pond** – for continued use of a natural waterbody that is a freeze-out pond.
- Initial NR 19 Permit** – for new use of a natural waterbody for fish farming (note, the waterbody must be a freeze-out pond).
- Transfer of NR 19 Permit** – to convey an existing NR 19 permit from one party to another, as a result of change in ownership or leasehold interest of a fish farm.

Number and dimension of ponds, raceways or tanks. Describe here and attach a diagram (Attachment # 4)

Attachments (Provide all of the following.)

1. Location sketch or map showing route to the project site, indicating nearest main road and crossroad, north arrow and scale.
2. Photocopy of deed, lease, land contract or other documentation showing that the land that is riparian to the body of water is owned, leased, or controlled by the permit applicant.
3. Photocopy of plat book showing property owners; photocopy of any easements for all properties surrounding the waterbody; and other documentation to show that none of the owners of the fish farm or riparian lands provide public access to the body of water by means of an easement or right-of-way or by means of a business open to the public. Note: the owners of the fish farm may allow fishing by the public for a fee.
4. Diagram showing number and dimensions of all ponds, raceways, tanks or other waterbodies to be used for fish farming.
5. For an Initial NR 19 Permit – Documentation to show the natural waterbody is a "freeze-out pond", meaning it is self-contained and has freezing or anoxic conditions that prevent a naturally-sustaining fish population at least twice every five years.
6. For a Transfer of NR 19 Permit – Photocopy of the previous owner's NR 19 permit, and documentation to show change of ownership.
7. Photocopy of any other permits or authorizations required by Ch. 30 or 31, Wis. Stats., the Army Corps of Engineers and any other federal, state or local laws and zoning ordinances for construction or operation of the fish farm.
