

## 2004 - 2005 Brule Steelhead Run

The graph above shows the 2004-2005 steelhead passage at the Brule River lamprey barrier/fishway. A combined fall and spring total of 9080 steelhead ascended, which included 7382 wild fish and 1698 fin-clipped hatchery fish. Peak movement occurred during the week of October 3 - 9 in the fall and the week of April 3-9 in the spring.

	FALL	SPRING	TOTAL	STOCKED PORTION
1998-99	8349	837	9186	439
1999-00	5510	1387	6897	441
2000-01	4463	924*	5387*	839*
2001-02	5484	1124	6608	1118
2002-03	7448	2035	9483	1985
2003-04	8251	1997	10248	2026
2004-05	7635	1445	9080	1698

\* represents an incomplete total due to spring 2001 flood
