TO: Discovery Meeting Follow-up Participants

FROM: Kristy Hanselman - WDNR

SUBJECT: Lower Wisconsin Watershed New Floodplain Study Prioritization

COLUMBIA COUNTY

Four comments were submitted.

1. This area will be restudied as Zone AE. A base flood elevation (BFE) will established and mapped.
2. WDNR will consider remapping this area using the existing BFE and LiDAR. It will not be restudied.
3. WDNR will consider remapping this area using the existing BFE and LiDAR. It will not be restudied.
4. Rowen Creek and Hinkson Creek will be redelineated as Zone AE based on the Dekorra Floodplain Report study by Montgomery Associates, but this will be done under a different project (not the Lower Wisconsin).

DANE COUNTY

Seven comments were submitted.

1. This area will not be restudied.
2. This area will not be restudied. Future conditions cannot be mapped.
3. This area will not be restudied.
4. This area will not be restudied.
5. N/A – no comment was included as number five.
6. This area will be restudied and included in the Black Earth study.
7. This area will be restudied and included in the Black Earth study.
8. This area will not be restudied. The proposed comment will not change the map.

GRANT COUNTY

No comments were submitted.

IOWA COUNTY

Six comments were submitted.

1. This area will be restudied as Zone A.
2. This community needs to go through the LOMR process and if the LOMR is issued in time WDNR will include it into the mapping.
3. This area will be restudied. WDNR will pull PL-556 on our end to use in the redelineation process and we will map Duesler as Zone A.
4. This area will be redelineated but will not be restudied. There is not enough justification to add this area to the restudy list.
5. This area of the Wisconsin River will be restudied, which will include Avoca Lake.

RICHLAND COUNTY

Five comments were submitted.

1. This area will be restudied as Zone A.
2. This area will be restudied as Zone A.
3. This area will be restudied as Zone A.
4. This area will be restudied as Zone A.
5. WDNR will incorporate the LOMR and do Zone A floodplain outside of that.

SAUK COUNTY

Two comments were submitted.

1. This area will be restudied as Zone AE for the Wisconsin River.
2. This area will be restudied as Zone AE for the Wisconsin River.

CRAWFORD COUNTY

No comments were submitted.
