

## Our Great Lakes

by John Bourgeois

If you close your eyes, and breathe deeply, you'll be able to pleasantly enjoy an aroma of freshness when coming to the Great Lakes. Wisconsin borders two of the largest of the Great Lakes, they are Lake Michigan to the East, and Lake Superior on the North. Both lakes are fun packed, and filled with whatever your imagination can conjure.

The lakes are easily accessible, and can be enjoyed year round. Whether its big game fishing, swimming, hiking, biking, or just sitting around on a white sandy beach, building a sand castle, you'll never get bored when visiting our vast shorelines. If it's winter you enjoy, there are ice caves, ice fishing, ice skating, snowmobiling and many more winter activities for visitors to embrace.

With everything there is for Wisconsin to offer, there's no reason not to visit here. So if you're looking to get away from the hustle and bustle of your very busy life, then come and visit the Great Lakes area in the beautiful State of Wisconsin. You'll certainly enjoy each and every minute of while here.
