A photograph of a cedar grove. The foreground is dominated by several large, gnarled tree trunks with deeply textured bark. The trees are arranged in a way that creates a sense of depth, leading the eye towards a body of water in the background. The water is calm and reflects the light. In the distance, a small white building is visible on the shore. The overall scene is peaceful and natural.

A photograph of a waterfall cascading through a dense forest. The water is a milky, yellowish-brown color, suggesting it is carrying sediment. The surrounding trees are in various stages of autumn, with some showing bright orange and red leaves, while others are still green. The scene is captured from a slightly elevated angle, looking down at the waterfall as it flows into a pool of water at the bottom. The overall atmosphere is serene and natural.
