Public Comment on the Draft Master Plan for the Sauk Prairie Recreation Area

I am writing to support the WDNR's proposals for ecological restoration, habitat management and quiet nature-based recreation on the former Badger Ammo lands but do NOT support proposed on/off-road motorcycles, high power rocketry and a future gun range because:

It's more beneficial to keep the natural prairie & wildlife & birds. Motorcycles & rocketry

Signed: Barbara Weum

Would disturb the ecosystems.

Public Comment on the Draft Master Plan for the Sauk Prairie Recreation Area

I am writing to support the WDNR's proposals for ecological restoration, habitat management and quiet nature-based recreation on the former Badger Ammo lands but do NOT support proposed on/off-road motorcycles, high power rocketry and a future gun range because:

1. Such noisy disruptive activities are opposite of the agreed upon conservation goals for the property.

Signed: Hildy Feen

2. Please honor the Badger Reuse plan which focuses on conservation + low-impact recreational activities. The WDNR agreed on this plan with multiple organizations.

Public Comment on the Draft Master Plan for the Sauk Prairie Recreation Area

I am writing to support the WDNR's proposals for ecological restoration, habitat management and quiet nature-based recreation on the former Badger Ammo lands but do NOT support proposed on/off-road motorcycles, high power rocketry and a future gun range because: *of the noise and pollution. I go there for peace, quiet, relaxation - nature seeing, hiking - A great time out place.*

Public Comment on the Draft Master Plan for the Sauk Prairie Recreation Area

I am writing to support the WDNR's proposals for ecological restoration, habitat management and quiet nature-based recreation on the former Badger Ammo lands but do NOT support proposed on/off-road motorcycles, high power rocketry and a future gun range because: *I had a wonderful guided bird tour here a few years ago. The proposals I oppose are 100% incompatible with habitat preservation and "SILENT" activities. This is likely Wisconsin's LAST opportunity to restore a large prairie.*
