

# Finley's Vegetation of the Southern Lake Michigan Coastal in the Mid-1800s

Scale: 1:525,000  
 Wisconsin Transverse Mercator NAD83(91)  
 Map SLMC1 - ams

ILLINOIS

- |  |   |
|--|---|
| Ecological Landscape   | Beech, hemlock, sugar maple, yellow birch, white red pines          |
| County Boundaries  | Hemlock, sugar maple, yellow birch, white pine, red pine            |
| Prairie  | Sugar maple, yellow birch, white pine, red pine                     |
| Brush  | Beech, sugar maple, basswood, red oak, white oak, black oak         |
| Oak - white oak, black oak, bur oak                          | Sugar maple, basswood, red oak, white oak, black oak                |
| Oak openings - bur oak, white oak, black oak                 | Swamp conifers - white cedar, black spruce, tamarack, hemlock       |
| Jack pine, scrub (hill's), oak forest and barrens            | Lowland hardwoods - willow, soft maple, box elder, ash, elm         |
| White pine, red pine   | Marsh and sedge meadow, wet prairie, lowland shrubs                 |
| Aspen, white birch, pine                                     | Area with vegetation cover type not interpreted on the source map   |
| White Spruce, fir, tamarack, white cedar, white birch, aspen | Hydrographic area from 1:250000-scale land use and land cover layer |

Vegetation delineations made by Robert W. Finley - 1976 Professor of Geography Emeritus. University of Wisconsin Center System. Digital data prepared by Maribeth Milner and Steve Ventura, University of Wisconsin - Madison.
