

A Primer: DNR's New Electronic Notice of Intent (eNOI)

June 13, 2012

Susan Kenney
Wisconsin DNR
608/266-0140

susan.kenney@wisconsin.gov

This document is intended solely as guidance, and does not contain any mandatory requirements except where requirements found in statute or administrative rule are referenced. This guidance does not establish or affect legal rights or obligations, and is not finally determinative of any of the issues addressed. This guidance does not create any rights enforceable by any party in litigation with the State of Wisconsin or the Department of Natural Resources. Any regulatory decisions made by the Department of Natural Resources in any matter addressed by this guidance will be made by applying the governing statutes and administrative rules to the relevant facts.

Keep in mind...

- Construction site storm water permit coverage under NR 216, Wis. Adm. Code
- eNOI only for construction site storm water permit coverage
- Paper applications continue to go to regional offices
- Read all instructions and save often
- eNOI can be accessed by searching "enoi" on DNR website (dnr.wi.gov)
- All documents shown on this presentation are test versions with test data

➤ Overview for today

- Introduction and advantages of the eNOI
- Creating a WAMs User ID & accessing the eNOI
- Features of the External Welcome Page
- Filling out the Main Page of the eNOI
- Using the eNOI Mapping Tool
- Uploading project photos
- Attachment A and B
- Submitting the eNOI
- Notification of Acceptance or Rejection
- Advantages of the eNOI to the reviewer
- Other issues, who to contact and questions

Why use the eNOI: for the User

- The eNOI includes a mapping tool or link to the SWDV that allows the applicant to create a project location map and attach it to the electronic application.
- It also includes links to other useful websites.
- The eNOI gives feedback on whether the form is complete.
- The eNOI gives the applicant notification that the information has been received.

Creating a WAMS User ID

- Click on the link <https://on.wisconsin.gov/WAMS/SelfRegController> and complete the self-registration form.

The screenshot shows a web browser window titled "Wisconsin Web Access Management System - Windows Internet Explorer provided by Wisconsin DNR". The address bar shows the URL "https://on.wisconsin.gov/WAMS/SelfRegController". The page features the Wisconsin state logo and the text "State of WISCONSIN". Below the logo, there are links for "Logout", "Help", and "FAQ". The main heading is "Self-Registration" with a note: "* Indicates Required Field".

Profile Information

First Name

Last Name

Suffix

E-Mail *

Phone #

If you provide address information it must be complete and correct. A United States Postal Service data base is used to verify each address.

Home Residence Address

Street

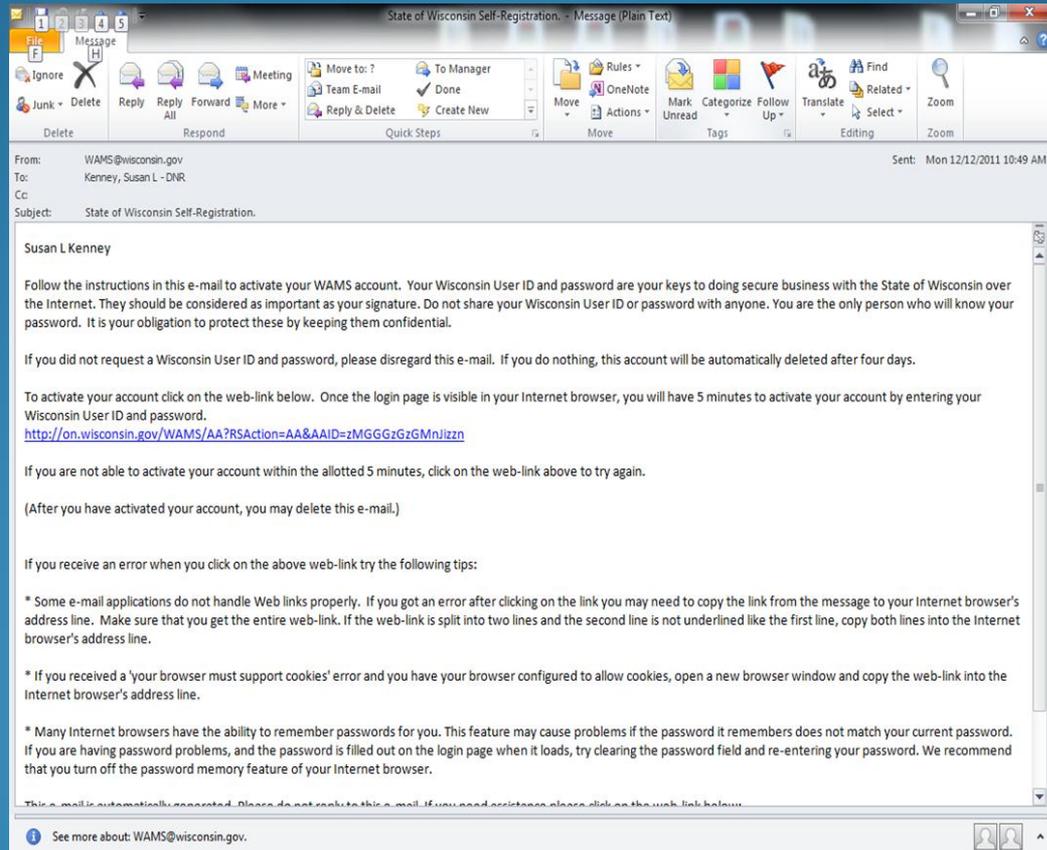

Unit Number

City

State

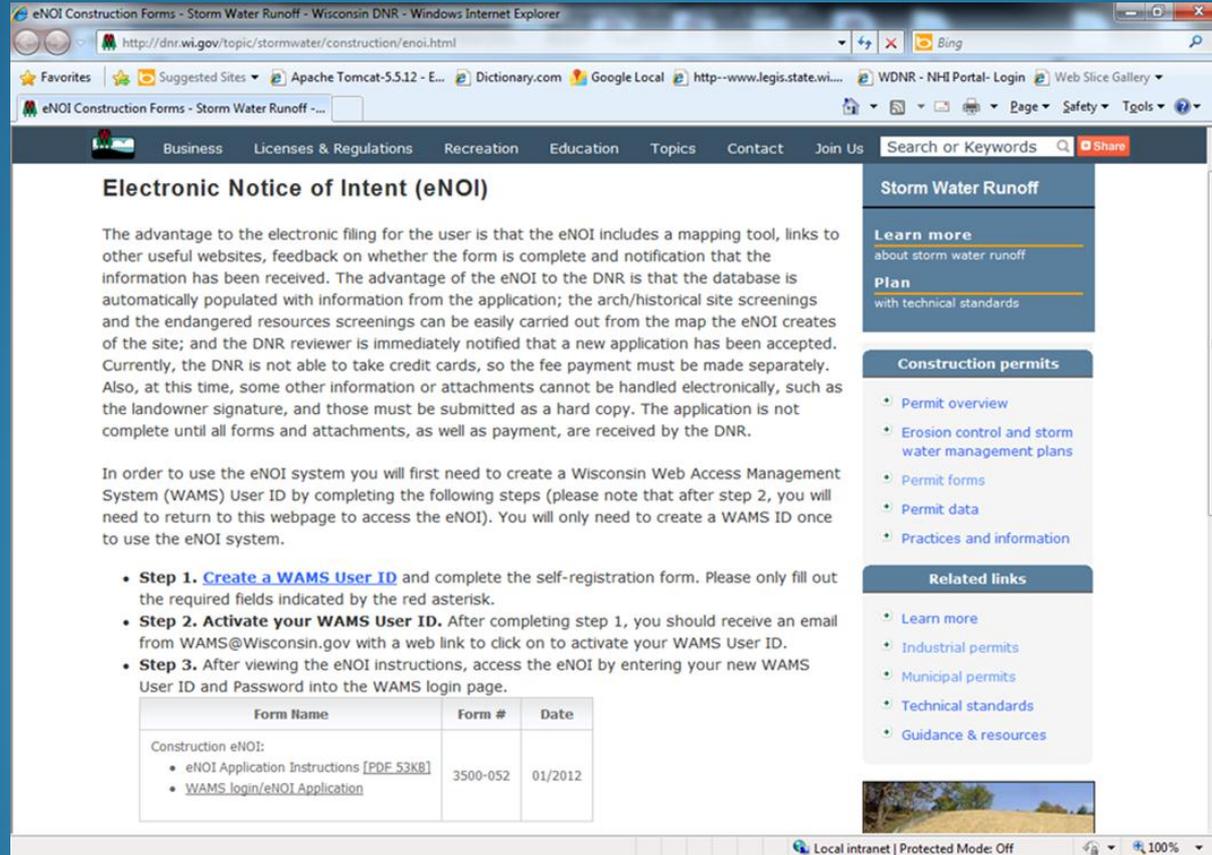

Creating a WAMS User ID

- After completing step 1, you should receive an email from WAMS@Wisconsin.gov with a web link to click on to activate your WAMS User ID.

Accessing the eNOI

- In order to access the eNOI, return to the DNR webpage <http://dnr.wi.gov/topic/stormwater/construction/enoi.html>

The screenshot shows a web browser window displaying the "eNOI Construction Forms - Storm Water Runoff" page. The page title is "Electronic Notice of Intent (eNOI)". The main content area contains a paragraph explaining the advantages of the eNOI system, such as the inclusion of a mapping tool and automatic population of the database. Below this, there is a section titled "In order to use the eNOI system you will first need to create a Wisconsin Web Access Management System (WAMS) User ID by completing the following steps (please note that after step 2, you will need to return to this webpage to access the eNOI). You will only need to create a WAMS ID once to use the eNOI system." This section includes three numbered steps: Step 1: Create a WAMS User ID; Step 2: Activate your WAMS User ID; Step 3: Access the eNOI instructions. A table below the steps lists the form name, form number, and date for the "Construction eNOI".

Form Name	Form #	Date
Construction eNOI: <ul style="list-style-type: none">eNOI Application Instructions [PDF 53KB]WAMS_login/eNOI Application	3500-052	01/2012

The right sidebar contains several sections: "Storm Water Runoff" with a "Learn more" link, "Plan" with a link "with technical standards", "Construction permits" with links for "Permit overview", "Erosion control and storm water management plans", "Permit forms", "Permit data", and "Practices and information", and "Related links" with links for "Learn more", "Industrial permits", "Municipal permits", "Technical standards", and "Guidance & resources".

eNOI Instructions

State of Wisconsin

dnr.wi.gov

eNOI Instructions NOTICE OF INTENT for Storm Water Discharges Associated With Land Disturbing Construction Activities

Form 3500-052 (R 01/12) Page 1

Answer all questions accurately and completely. Electronic forms with misinformation will be rejected and returned to the applicant for corrections. For questions, contact the eNOI Storm Water Intake Specialist at (608) 266 – 0140, DNReNOIIntake@wisconsin.gov.

Who can use this form: This electronic application form is to be used for the Notice of Intent (NOI) (formerly form 3400-161) for state coverage under the WPDES construction site storm water general permit (Permit No. WI-S067831) for land disturbing construction activity or the renewal of a construction site project where coverage under the permit has expired (after 3 years) and the applicant must reapply for coverage. The original Facility Identification Number (FIN) must be provided for a renewal.

Once you have submitted your complete eNOI, a Signature Page will be generated. Please follow the mailing and fee schedules on the Signature Page. The eNOI application will not be considered complete until the Signature Page and appropriate fee are received at the location indicated.

Section 1: Applicant Information

Provide the legal name of the person, firm, public organization, or any other entity that has the authority to apply for a permit or coverage under a general permit for the activity described in Section 7 of this application. The authorized representative is the person who will ultimately sign the application. Provide the mailing address, e-mail address, fax and phone number for the authorized representative.

For a construction site general permit, state regulations require this form to be signed by the landowner or an authorized representative as follows:

1. For a corporation, by a responsible corporate officer including president, secretary, treasurer, vice president, manager, or a duly authorized representative having overall responsibility for the operation covered by this permit;
2. For a unit of government, by a ranking elected official, or other duly authorized representative;
3. For a partnership, by a general partner; and for a sole proprietorship, by the proprietor;
4. For a limited liability company, by a manager.

Section 2: Landowner Information

If different from the applicant, provide the legal name of the person, firm, public organization, or any other entity that owns the site described in Section 7 of this application. If the landowner is a corporation, the contact person should be the person completely familiar with the construction project activity and charged with compliance and oversight of the permit. Provide the mailing address, e-mail address, fax and phone number for the contact person.

Section 3: Other Contact Information

In this section, the preparer of the plans, the main contractor, the agent acting for the landowner or any other entity involved in the activity described in Section 7 may be identified. Describe their involvement and provide the legal name of the person, firm, or any other entity. The contact person should be the person completely familiar with the construction project activity and/or charged with implementation of the permit, such as the plan designer. Provide the mailing address, e-mail address, fax and phone number for the contact person.

For application for coverage under the construction site storm water general permit you will be asked to identify in Attachment A (Form 3500-052A) the person responsible for maintenance of the erosion and sediment control practices (such as the contractor or a sub-contractor) and in Attachment B (Form 3500-052B) the person responsible for long-term maintenance of the post-construction practices (such as a municipality or home owners association or the owner) if known at the time of application. You do not need to repeat those contacts in this section.

Section 4: Project or Site Information

Enter the construction site's official or legal name and its complete address or location description to the best of your ability. Enter county, municipality name using the drop down boxes. Once you enter the county, the drop box for the municipality will only display those found in that county.

Section 5: Location Information

You are required to attach a site map to your e-application. Use the Surface Water Data Viewer link that is provided in Section 5 to create an ortho-photo map and draw the perimeter of the project site using the Locate Area tab. You can add

Go live

Accessing the eNOI

- enter your new WAMS User ID and Password into the WAMS login page.

The screenshot shows a Windows Internet Explorer browser window displaying the WAMS login page. The browser's address bar shows the URL: <https://prd.wamsidp.wisconsin.gov/nidp/dff/esso?id=Ent.Login&sid=0&option=credential&sid=0>. The page features the State of Wisconsin logo and the text "State of W I S C O N S I N". Below this, the WAMS logo is displayed next to the text "WEB ACCESS MANAGEMENT SYSTEM". The login form includes two input fields: "User ID:" and "Password:", followed by a "Login" button. Below the login fields, there are two links: "[Forgot your password? Is your account locked?](#)" and "[Request a Wisconsin User ID and Password.](#)". A disclaimer paragraph is present, stating: "You are accessing the State of Wisconsin Local/Wide area network. This system is for authorized users only. All equipment, systems, services, and software connected to this network are intended only for the official business use of the State of Wisconsin. The State of Wisconsin reserves the right to audit, inspect and disclose all transactions and data sent over this medium in a manner consistent with State and Federal laws. By using this system you expressly consent to all such auditing, inspection and disclosure. Only software approved, scanned for virus, and licensed for State of Wisconsin use will be permitted on this network. Any illegal or unauthorized use of State of Wisconsin equipment, systems, services, or software by any person(s) may be subject to civil or criminal prosecution under state and federal laws, and may also result in disciplinary action where appropriate." At the bottom of the page, there are two links: "[WAMS Home](#)" and "[Wisconsin Portal Home](#)", with a red note below them: "Please don't bookmark this page." The browser's status bar at the bottom shows "Done" and "Internet". The Windows taskbar at the very bottom displays the Start button, several open applications (Inbox - Microsoft Out..., FW: We did RI - Mess..., Wisconsin Web Acces...), and the system tray with the time "02:06 PM".

Water Resources Application for Project Permits

Form 3500-053 R(11/11) Page 1

Notice: Pursuant to chs. 30 and 31, Wis. Stats., ch. 281, Wis. Stats., and s. 283.33, Wis. Stats., this form is used to apply for coverage under the state construction site storm water runoff general permit, and to apply for a state or federal permit or certification for waterway and wetland projects or dam projects. This form and any required attachments constitute the permit application. Failure to complete and submit this application form may result in a fine and/or imprisonment or forfeiture under the provisions of applicable laws. Personal information collected will be used for administrative purposes and may be provided to requesters to the extent required by Wisconsin's Public Records Laws (ss. 19.31 – 19.39, Wis. Stats.).

Use this form for (check all that apply)

- Work in public waters (DNR – ch. 30, Wis. Stats.)
- Storm water NOI - New land disturbing construction activity
- Work in waters of the U.S (Corps of Engineers)
- Storm water NOI - Renewal FIN # []
- Permit for Wetland Fill (DNR or Corps of Engineers)
- Dam projects (DNR or Corps of Engineers)

Read all instruction provided before completing. Please save often.

Surface Water Data Viewer Construction Permit Applications

Use this theme to indicate the location of your construction project or pier.

Locating your project:

Zoom into the area of your project.

Use the **Locate Site** button in the toolbar above if your project is under an acre in size. You must be in as close as 1:5000 to use the locate site tool. Choose the point at the center of your project. Some basic information about this site will be presented.

Use the **Locate Area** button in the toolbar above if your project encompasses an acre or more. Create the shape of your project point by point. Once you are satisfied with the placement of your project click OK. Some basic information about this site will be presented. If you came here from an eWRAPP then you will be able to submit the data back to the application. Or you can return to application without mapping the project.

Construction Project Consolidated Permit

<http://dnrx.wisconsin.gov/wetlands/locating.html>

Section 7: Project Information (Attach additional sheets as necessary)

Duration:	Anticipated Project Start Date (mm/dd/yyyy)	Projected Project End Date (mm/dd/yyyy)
	<input type="text" value=""/>	<input type="text" value=""/>
Photos:	Provide photographs of the "before" condition. Date of Photographs:	
	<input type="text" value=""/> Upload photo	

Narrative of the Project:
Provide a one to two paragraph description of the proposed project, including land and water alteration and intended use(s) of the project.

Section 8: Attachments and Permit Access (include required attachments for each proposed activity.)

Please be aware that Attachment A, Construction Erosion and Sediment Control (Form 3500-052A), and Attachment B, Post-Construction Storm Water Management (Form 3500-052B), are required submittals with a storm water electronic permit application. In addition to Attachments A and B, the Signature Page generated when a storm water electronic permit application is submitted to the Department will list other required submittals to constitute a complete application.

I have obtained a copy of the construction site storm water runoff general permit from the department's internet site.

Section 9: Certification & Permission

Certification: I hereby certify that I am the owner or authorized representative of the owner of the property which is the subject of this Permit Application. I certify that the information contained in this form and attachments is true and accurate. I understand that failure to comply with any or all of the provisions of the permit may result in permit revocation and fine and/or imprisonment or forfeiture under the provisions of applicable laws.

Permission: I hereby give the Department permission to enter and inspect the property at reasonable times, to evaluate this notice and application, and to determine compliance with any resulting coverage.

Name of Owner/Authorized Representative	Title	Telephone Number (include area code)

Construction Project Consolidated Permit

State of Wisconsin  
Department of Natural Resources  
dnr.wi.gov

Water Resources Application for Project Permits  
Form 3500-053 R(11/11) Page 1

Notice: Pursuant to chs. 30 and 31, Wis. Stats., ch. 281, Wis. Stats. and s. 283.33, Wis. Stats., this form is used to apply for coverage under the state construction site storm water runoff general permit, and to apply for a state or federal permit or certification for waterway and wetland projects or dam projects. This form and any required attachments constitute the permit application. Failure to complete and submit this application form may result in a fine and/or imprisonment or forfeiture under the provisions of applicable laws. Personal information collected will be used for administrative purposes and may be provided to requesters to the extent required by Wisconsin's Public Records Laws (ss. 19.31 – 19.39, Wis. Stats.).

Use this form for (check all that apply)

Work in public waters (DNR – ch. 30, Wis. Stats.)  Storm water NOI - New land disturbing construction activity  
 Work in waters of the U.S (Corps of Engineers)  Storm water NOI - Renewal FIN #   
 Permit for Wetland Fill (DNR or Corps of Engineers)  Dam projects (DNR or Corps of Engineers)

Read all instruction provided before completing. Please save often.

# Signature Page

## Storm Water Signature Page Electronic NOTICE OF INTENT

Submittal of this application form is authorized by s. 283.33, Wis. Stats., for Storm Water Discharges. Personally identifiable information on this form may be used for other program purposes and may be made available to requestors under Wisconsin's Public Records laws and be posted on the Department website. This form and any required attachments constitute the permit application. Failure to complete and submit this application form may result in a fine and/or imprisonment or forfeiture under the provisions of applicable laws.

This application will not be considered complete until all attachments and fee are received at the location below.

Send this signature page, all indicated attachments and application fee to:

Wisconsin Department of Natural Resource  
eNOI Storm Water Intake - WT/3  
P.O. Box 7186  
Madison, WI 53707-7186  
(808) 268-0140

### Attachments:

- \* Check or Money Order
- \* Map (if your submittal is for a utility or road project with multiple segments, you must send in a map showing the exact location of these segments)
- \* Model from A7
- \* Design from B3
- \* Long term maintenance agreement from B4
- \* Site evaluation summary from B11

### Fees:

There is a non-refundable fee required with the submittal of this form. Remit a check or money order payable to the Wisconsin Department of Natural Resources (do not send cash).

The fee is \$235 based on land disturbance of five acres or more and less than 25 acres

Certification: I hereby certify that I am the owner or authorized representative of the owner of the property which is the subject of this Permit Application. I certify that the information contained in this form and attachments is true and accurate. I understand that failure to comply with any or all of the provisions of the permit may result in permit revocation and fine and/or imprisonment or forfeiture under the provisions of applicable laws.

Permission: I hereby give the Department permission to enter and inspect the property at reasonable times, to evaluate this notice and application, and to determine compliance with any resulting coverage.

**To:** Kempen, Andrew J - DNR; Jones, Emily H - DNR  
**Cc:** Kenney, Susan L - DNR  
**Subject:** Storm Water eNOI Rejected for: Jim B Test 1 LLC (37676)

Test Message sent to: jim.bertolacini@wisconsin.gov,123@465.net  
Test Message cc'd to: DNReNOIIntake@wisconsin.gov

Dear applicant:

On 06/06/2012 the Wisconsin Department of Natural Resources (Department) received an electronic Notice of Intent (eNOI) for Jim B Test 1 LLC for coverage under the construction site storm water discharge permit pursuant to Chapter NR 216, Wis. Adm. Code. The eNOI submitted to the Department has incorrect information and/or lacks key information necessary for us to proceed with the request for permit coverage. As a result it has been rejected and placed back into 'In Progress' status. The items that need clarification are indicated below:

Test rejection

PLEASE CORRECT THE INFORMATION AND RESUBMIT.

Thank you for your cooperation with the Wisconsin Construction Site Storm Water Discharge Permit Program and for using eNOI. If you have any questions please contact me by replying to this e-mail.

# Notification of Acceptance

**Subject:** Notification of Pending Permit Coverage for: Jim B Test 1 LLC (37676)

Test Message sent to: jim.bertolacini@wisconsin.gov,123@465.net  
Test Message cc'd to: DNRENOISWSDW@wisconsin.gov , DNReNOIIntake@wisconsin.gov

Dear applicant:

Thank you for submitting the electronic Notice of Intent (eNOI), signature page, and appropriate fee to the Wisconsin Department of Natural Resources (Department) for the Jim B Test 1 estates project, FIN 37676. The Department received these materials on 06/11/2012 and has determined that your electronic application for the project for coverage under the construction site storm water discharge permit pursuant to subch. III of ch. NR 216, Wis. Adm. Code, is now complete.

The Department has until the 14th working day from 06/11/2012 to review the application and related information. If you have not received any notice from the Department requesting additional information or otherwise withholding permit coverage, then permit coverage will be conferred automatically on the 14th day after the Department received the complete eWRAPP application. During the 14-working day application review period, Department staff will be reviewing the eNOI application and related information. Permit coverage may be withheld if the Department notifies you and requests additional information that the Department has identified as being necessary to complete an appropriate review of the erosion control and/or storm water management plan for the project or if archaeological/historical resources or endangered/threatened species concerns need to be addressed. Permit coverage may be withheld until these issues are resolved.

Thank you for using eNOI. If you have any questions please contact me by replying to this e-mail.

October 20, 2011

Jim Berto  
Jims 8-17-2011 test  
123 4th St  
Madison, WI 53700

**SUBJECT:** Coverage Under WPDES General Permit No. WI-S067831-4: Construction Site Storm Water Runoff

Permittee Name: Jims 8-17-2011 test  
Site Name: Jims 8-17-2011 test site  
FIN: 41409

Dear Permittee:

The Wisconsin Department of Natural Resources received your Construction Project Consolidated Permit Application or Notice of Intent, on August 17, 2011, for the Jims 8-17-2011 test site and has evaluated the information provided regarding storm water discharges from your construction site. We have determined that your construction site activities will be regulated under ch. 283, Wis. Stats., ch. NR 216, Wis. Adm. Code, and in accordance with Wisconsin Pollutant Discharge Elimination System (WPDES) General Permit No. WI-S067831-4, Construction Site Storm Water Runoff. All erosion control and storm water management activities undertaken at the site must be done in accordance with the terms and conditions of the general permit.

The **Start Date** of permit coverage for this site is October 20, 2011. The maximum period of permit coverage for this site is limited to 3 years from the **Start Date**. Therefore, permit coverage automatically expires and terminates 3 years from the **Start Date** and storm water discharges are no longer authorized unless another Notice of Intent and application fee to retain coverage under this permit or a reissued version of this permit is submitted to the Department 14 working days prior to expiration.

A copy of the general permit along with extensive storm water information including technical standards, forms, guidance and other documents is accessible on the Department's storm water program Internet site. To obtain a copy of the general permit, please download it and the associated documents listed below from the Construction Site Permit Forms table on the following Department Internet site:

<http://dnr.wi.gov/runoff/stormwater/constrforms.htm>

- Construction Site Storm Water Runoff WPDES general permit No. WI-S067831-4
- Construction site inspection report form
- Notice of Termination form

If, for any reason, you are unable to access these documents over the Internet, please contact me and I will send them to you.

To ensure compliance with the general permit, please read it carefully and be sure you understand its contents. Please take special note of the following requirements (This is not a complete list of the terms and conditions of the general permit):

1. The Construction Site Erosion Control Plan and Storm Water Management Plan that you completed prior to submitting your permit application must be implemented and maintained throughout construction. Failure to do so may result in enforcement action by the Department.

# Why use the eNOI: for the WDNR reviewer

- The database is automatically populated with information from the application.
- The archaeological and historical site screenings, endangered resources screenings and wetland screenings can be more easily carried out from the map the eNOI creates of the site.
- The WDNR reviewer is immediately notified that a new application has been accepted.

## Other Issues:

- Save often!
- Draw a polygon for site location on map
- Payment and signature page needed to complete application
- Make sure to mail items to correct address
- If you experience problems, please contact us

# Who to contact with eNOI questions

Susan Kenney
