* Includes approximately 23 MBF of sawlog volume

** Includes approximately 10 MBF of sawlog volume

Estimated Price for Entire Sale = \$25,419.80

Purpose of Sale:

To regenerate areas of aspen and oak.

Special Operating Requirements and Slash Disposal:

1. This sale contains oak regeneration areas and must follow oak wilt restrictions. No cutting of trees in the oak seed tree area from April 1st to July 15th, or from April 1st to July 31st in the area that contains threatened species habitat.
2. The cutting boundaries are red and blue paint lines, woods trails and Clay School Road. Do not cut blue or red painted boundary trees.
3. No biomass harvesting is allowed on this sale due to low nutrient soils.
4. All pine products cut between March 1st and August 30 must be removed from the sale area within three weeks from time of cutting. Pine products cut during the remainder of the year must be removed before March 15th.
5. Slash must be evenly lopped/scattered within the sale boundary and shall be deposited a minimum of 10 feet from the mowed right-of-way of any highway, town road, or recreational trail. Slash within 50 feet of all town roads and recreational trails must lie within 2 feet of the ground. Do not bury seedlings or saplings with slash.

General Requirements:

1. All designated tree species must be cut and forwarded concurrently with the sale.
2. All stumps shall be no higher than the stump diameter, or 10 inches, whichever is less.
3. Do not cut or knock down any dead or hollow trees. These are important wildlife habitat. Any that must be cut shall be left in big pieces on the forest floor.
4. Utilization: cut and use all designated trees with one or more 100" sticks to a 4" top diameter.
6. Notify the DNR forester before you start the job, and each time you pull out or return to the job.
7. All landings, roads and berms must be approved in advance by a DNR forester before operations begin and shall be restored to the forester's satisfaction following the harvest completion.
8. Any trees cut or pushed over for new roads or landings must be utilized or cleaned up to the DNR Forester's satisfaction.
9. Contact the town of Komensky prior to beginning logging operations at: 715-299-0093.
10. **Wisconsin's Best Management Practices for Invasive Species applies – contractor must clean equipment before entering and leaving the sale area! This involves brushing away all dirt and cleaning air intakes of debris.**
