LICENSE AGREEMENT FOR DNR DIGITAL WISCONSIN WETLAND INVENTORY DATA

License Terms DNR-produced GIS datasets are copyrighted original works. They are licensed for use, not sold. The DNR reserves all rights of authorship granted under U.S. and International copyright laws and agreements. By signing below, licensee agrees to abide by all terms and conditions of this agreement. **Any order that includes copyrighted data must be accompanied by an original, signed license agreement, or it will be returned unfulfilled to the orderer.**

Protection of Proprietary Rights Reproduction or redistribution of copyrighted digital datasets (Dams, Deer Management Units, Groundwater Contamination Susceptibility, 100K Hydrography Network and Points, Land Use, Land Net, Recreational Trails, Townships, Watersheds, and Wetlands) or products derived therefrom outside of licensee's organization/entity is **expressly forbidden**. The only exception is redistribution to consultants working for the licensee, and then only for purposes related to licensee's business. Such consultants may not further reproduce or redistribute these copyrighted datasets, and the copies of the licensed datasets must be returned to the licensee upon completion of the consultants' work. It is a violation of this license agreement to post for viewing, to sell, or to provide by other means, the Wisconsin Digital Wetland Inventory on the Internet.

Reproduction or redistribution of hard copies of copyrighted datasets is permitted under the following conditions:

Fewer than 6 copies: unrestricted;

6 or more copies: For non-commercial purposes only (e.g., incidental use in a report, government agency publication, or maps of a non-profit organization) unless specific written permission is received from the DNR Wisconsin Wetland Inventory (WWI) staff.

Liability DNR will not be liable in any way for accuracy of the data, and assume no responsibility whatsoever for direct, indirect, special, consequential, exemplary or other damages. The burden for determining "fitness for use" rests entirely upon the purchaser.

Scheduling Data orders do not command priority over other projects or work demands of the DNR WWI program. Customers are advised that significant delays may sometimes occur due to staff shortages or schedule constraints. A good faith effort will be made to fill orders as promptly as possible within normal operations of the WWI program staff. Users are encouraged to order early.

Costs Use of this copyrighted GIS dataset is licensed by the DNR as per the attached Digital WWI Digital Data Form. These prices have been set by statute and represent an average reproduction cost, including order administration, labor, computer time, and delivery via U.S. Mail. Media charges (see DNR Digital WWI Order Form) are assessed separately. Purchase orders are acceptable from government agencies. **Prepayment is required for other entities.** Checks should be made payable to "Wisconsin Department of Natural Resources".

Database Organization Tile structure is by Public Land Survey System (PLSS) Township (ie: T07N R10E) at a scale of 1:24,000 (1" = 2,000').

Updates GIS data sets are distributed on a one-time basis. The DNR is under no obligation to inform customers of data updates, alterations, or accuracy errors discovered thereafter. The burden of ordering and paying for updated copies of data sets rests entirely upon the licensee and/or requestor. Revisions will be made by the DNR on a time and funding-available and discretionary basis.

Credits Any hard copies utilizing DNR digital WWI datasets shall clearly indicate their source and copyright. If the licensee has modified the data in any way whatsoever, they are obligated to describe the types of modifications they have performed on the hardcopy map. Any altered graphic elements shall be clearly symbolized to distinguish them from the original DNR digital WWI data. Licensee specifically agrees not to misrepresent the DNR digital WWI data, nor to imply that changes they made were approved by the DNR, unless specific written permission is received from the Department's Wisconsin Wetland Inventory Staff.

Separability of Provisions If any portion of this agreement is found to be in conflict with any Wisconsin or U.S. law, that portion will be declared null and void. All remaining provisions will remain in force.

Authorization The signatory for the licensee represents and warrants that s/he is authorized to execute this document on behalf of the requesting organization/entity.
