Ownership
The DNR Managed Lands data are a spatial representation of a March 1996 "snapshot" of the Bureau of Facilities and Lands' (LF) Oracle Land Records System and may include errors and omissions and should not be interpreted as a legal representation of legal ownership boundaries. All requests from outside the agency should be referred to:
Jeff Walters (waltej@dnr.state.wi.us) or
Dick Steffes(steffr@dnr.state.wi.us)
Due to scale and processing limitations, some state, mfl, fcl, or other parcels depicted on the map are shown as a full 40 acres. In reality, actual acreage amounts may be much smaller. Also to be noted are that any land interest, ownership or easement parcels, excluding federal lands, that can be described as government lots, are not depicted on this map. Not all areas depicted on this map indicate ownership, but they may represent easements or other designations.
